SPECIFICATION SHEET

ZOLL AED 3 CPR UNI-PADZ

- For use exclusively with the ZOLL AED 3®, CPR Uni-padz electrodes have an industry-leading shelf life of five years and can be used on both adult and child patients, so there is no need to maintain two separate sets of pads.
- The ZOLL AED 3 full-colour LCD display includes graphics that coincide with the electrode shapes and colours to support proper pad placement on both adults and children.
- By simply repositioning the pads and activating the Child Mode on the ZOLL AED 3, CPR Uni-padz can be used to treat child patients 8 years of age or younger or under 25 kg (55 lbs.).

Carton Weight: 0.00kg
