Safety Data Sheet (SDS)Conforms to Reg. (EC) No 1907/2006, Reg. (EC) No1272/2008 and their amendments SHJ00442379				
			Version:1.0	
SECTION1: Identifi	ication of the product and the c	ompany/undertaking		
1.1. Product ident	ifier			
Product name:	Toners CE410A Black MT			
Pure substance/mixture	: mixture			
1.2. Relevant iden	tified uses of the product and uses advi	sed against		
Recommended Use Uses advised against	Toner No information available			
1.3. Details of the	supplier of the safety data sheet			
Supplier name:				
Address:				
Telephone:				
Importer name:				
Address:				
Telephone:				
Fax:				
E-mail:				
1.4. Emergency telephone number				
Country	Advisory body	Address	Emergency number	

SECTION2: Hazards identification				
2.1. Classification of the product				
Classification according to Directive1999/45/EC: Not considered as a hazardous mixture.				
Classification according to Regulation (EC) No 1272/2008 [CLP]: Not considered as a hazardous mixture.				
Other adverse physico-chemical, human health and environmental effects				
None				
2.2. Label elements				
Labelling according to Directive1999/45/EC: None				
Labelling according to Regulation (EC) No 1272/2008 [CLP]: None				
2.3. Other hazards				
None				
SECTION3: Composition/information on ingredients				
3.1. Substance				
Net englischie				

Not applicable.

Safety Data Sheet (SDS)Conforms to Reg. (EC) No 1907/2006, Reg.(EC) No1272/2008 and their amendments

SHJ0044237901 Version:1.0

Full text of R-, H- and EUH-phrases: see section 16.

SECTION4:Firstaidmeasures

4.1. Description of first aid measures

Inhalation: Move victim to fresh air. If not breathing, give artificial respiration. Get medical attention.

Skin contact: Immediately wash with plenty of soap and water. Get medical attention if irritation occurs.

Eye contact: Immediately flush eyes with running water for at least 20minutes holding eyelids open. Get medical attention.

Ingestion: Do not induce vomiting. Give 1-2 glasses of water to a conscious victim. Never give anything by mouth to an unconscious victim. Get medical attention.

4.2. Most important symptoms and effects, both acute and delayed

Inhaled:

The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

Ingestion:

Although ingestion is not thought to produce harmful effects (as classified under EC Directives), the material may still be damaging to the health of the individual, following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. Present definitions of harmful or toxic substances are generally based on doses producing mortality rather than those producing morbidity (disease ,ill-health).

Skin Contact:

Skin contact is not thought to have harmful health effects (as classified under EC Directives); the material may still produce health damage following entry through wounds, lesions or abrasions.

Eye:

Although the material is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterized by tearing or conjunctival redness (as with windburn).

Chronic:

Long-term exposure to the product is not thought to produce chronic effects adverse to health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimized as a matter of course.

4.3. Indication of any immediate medical attention and special treatment needed

Get medical attention and treat symptomatically.

Safety Data Sheet (SDS)Conforms to Reg. (EC) No 1907/2006, Reg.(EC) No1272/2008 and their amendments

SHJ0044237901 Version:1.0

SECTION5:Firefightingmeasures

5.1. Extinguishing media

Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2).

5.2. Special hazards arising from the product

No data available.

5.3. Advice for firefighters

Alert Fire Brigade and tell them location and nature of hazard.

Wear breathing apparatus plus protective gloves.

Prevent, by any means available, spill age from entering drains or water courses.

Use water delivered as a fine spray to control fire and cool adjacent area.

DO NOT approach containers suspected to be hot.

Cool fire exposed containers with water spray from a protected location.

Only when safe to do so, remove containers from path of fire.

SECTION6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Wear chemical goggles and chemical resistant gloves.

6.1.2. For emergency responders

Wear breathing apparatus plus protective gloves. Remove ignition sources and provision of sufficient ventilation, evacuate the danger area and consult experts.

6.2. Environmental precautions

Take precautions to prevent entry into waterways, sewers, or surface drainage systems. Dispose according to local or international regulations.

6.3. Methods and material for containment and cleaning up

Use appropriate tools to put the splash solid in suitable container for recovery or disposal.

6.4. Reference to other sections

Refer to Section 8forPersonalProtective Equipment advice.

SECTION7:Handlingandstorage

7.1. Precautions for safe handling

Do not handle until all safety, precaution shave been read and understood. Do not eat, drink or smoke when using this product.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: PE. Refertosection10.

Storage incompatibility: Avoid reaction with strong acid, alkali and oxidizing agents.

7.3. Specific end use(s)

Apart from the uses mentioned in section 1.2, no other specific uses are stipulated.

SECTION8:Exposurecontrols/personal protection				
8.1.	Control paramete	irs		
	Substance	Silica, amorphous		
	CAS No.	7631-86-9

8.2. Exposure controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection. The basic types of engineering controls are:

Process controls which involve changing the way a job activity or process is done to reduce the risk.

Enclosure and/or isolation of emission source which keeps as elected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment.

General Personal Protection: Safety goggles or face shield, chemical resist ant gloves, protective clothing and apparatus.

SECTION9:Physicalandchem	icalproperties	
9.1. Information on basic physical and chemical properties		
Physical state:	Solid	
Colour: Odour:	Black No data available	
pH:	No data available	
Melting point/freezing point:	No data available	
Boiling point:	No data available	
Flash point:	No data available	
Vapour pressure:	No data available	
Density(g/cm3):	No data available	
Water solubility:	No data available	
Partition coefficient(n-octanol/water):	No data available	

Safety Data Sheet(SDS)Conforms to Reg. (EC) No 1907/2006, Reg. (EC) No1272/2008 and their amendments

SHJ0044237901 Version:1.0

Auto-ignition temperature:	No data available
Flammability:	Non flammable
Upper/lower explosive limits:	No data available
Explosive properties:	No data available
Oxidizing properties:	No data available
Dissociation constants:	No data available
Surface tension:	No data available
Viscosity:	No data available

9.2. Other information

No data available.

SECTION10: Stability and reactivity				
10.1.	Reactivity			
May rea	ct with strong acid, alkali, oxidizing agents and incompatible materials.			
10.2.	Chemical stability			
Product	is considered stable during storage and transporation under normal condition.			
10.3.	Possibility of hazardous reactions			
Hazardo	ous reactions mayoccur if contact within compatible material.			
10.4.	Conditions to avoid			
High temperature, ignition sources (sparks, flames, static), incompatible materials.				
10.5.	Incompatible materials			
Strong acid, alkali and oxidizing agents				
10.6.	Hazardous decomposition products			
On combustion or the rmalde composition, may emit toxic fumes.				

SECTION11: Toxicologicalinformation

11.1. Information on toxicological effects

No data available for the mixture.

SECT	ION12: Ecological ii	nformation
12.1.	Aquatic toxicity	
No data	available for the mixture.	
12.2.	Persistence and degra	dability
Biodeg	radation:	No data available
Abiotic	degradation:	No data available
12.3.	Bioaccumulative poter	ntial
Biocon	centration factor (BCF):	No data available
12.4.	Mobility in soil	
Distrib	ution to environmental	No data available
compa	artments:	
Adsorp	otion/Desorption:	No data available
12.5.	Results of PBT and vP	vB assessment
No data	available.	

Safety Data Sheet(SDS)Conforms to Reg. (EC) No 1907/2006, Reg. (EC) No1272/2008 and their amendments

SHJ0044237901 Version:1.0

12.6. Other adverse effects

No data available.

SECTION13:Disposalconsiderations

13.1. Waste treatment methods

Product disposal: refer to specific national regulation.

Contaminated packaging: contaminated, empty containers must be disposed of as chemical waste.

SECTION14:Transportinformation

Based on available data, the information according to UN recommendation on the transport of dangerous goods is given as below:

Label required None

Transport information

14.1	UN Number	None
14.2	Shipping name	None
14.3	Road (ADR)	None
	Rail(RID)	None
	Air (ICAO/IATA)	None
	Sea (IMO/IMDG)	None
14.4	ADR-Packing Group:	None
14.5	Environmental Pollutant:	No
	Marine pollutant:	No
14.6	Special Precautions for User	N.A.

14.7.Transportinbulk according to Annex II of MARPOL73 / 78 and the IBC code

No data available

SECTION15:Regulatoryinformation

15.1. Safety, health and environmental regulations/ legislation specific for the substance or mixture

15.1.1. EU-Regulations

This safety data sheet is incompliance with the following EU legislation and its adaptations- as far asapplicable-67/548/EEC,1999/45/EC, Regulation (EC) No 1272/2008, Regulation (EC) No1907/2006, 98/24/EC, 92/85/EEC, 94/33/EC, 91/689/EEC and 1999/13/EC.

15.1.2. International/national regulations

No data available

15.1.3. Regulation for ingredients

None

15.2. Chemical safety assessment

No chemical safety assessment report was provided for this safety data sheet compilation.

SECTION16:Otherinformation

16.1Keyliterature references and sources for data

16.30ther

This product should be stored, handled and used in accordance with good industrial hygiene practices and inconformity with any legal regulation. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

For detailed advice on Personal Protective Equipment, refer to the following EUCEN Standards:

- EN 16Personal eye-protection
- EN 340Protectiveclothing
- EN 374Protective gloves against chemicals and micro-organisms
- EN 13832 Footwear protecting against chemicals
- EN 133 Respiratory protective devices

The information presented in this SDS is based on our current knowledge and available data as of the issue date, and is only intended to describe the product for the purposes of protecting human health and environment from potential hazard. It should not therefore be construed as guaranteeing any specific property of the product.
