TA-8035 CLOCKING IN SYSTEM

WITH RFID, FINGERPRINT SENSOR & WIFI

Safescan's intelligent TA-8035 combines the latest RFID proximity and fingerprint technology with comprehensive management software, making it easy for employees to clock in and out while giving you powerful tools to efficiently manage your workforce. The included TA time and attendance software puts a comprehensive array of overview and management tools at your fingertips. You will always – even in real time – have full control over your employees' worked hours. With its many convenient and practical features, the Safescan TA software is all you need for effective workforce management.

- High speed fingerprint sensor and integrated RFID card reader
- Built-in Wi-Fi module to connect to a wireless network
- Registers up to 3.000 users
- Stores up to 100.000 time records
- 3.5" TFT colour screen
- Graphical User Interface (GUI)
- Self-Service Query for easy verification of time logs by employees
- 8 Function keys for easy work-code registration
