About BUFFALO

BUFFALO is a global manufacturer of innovative storage and networking products for the home and small business.

The company's storage products are addressing the needs of the individual and the business, providing cost-effective network attached storage (NAS), portable and desktop hard drives, 10GbE switches, optical drives and wireless LAN routers, which together offer a complete and integrated solution for companies and the digital home.

At the core of BUFFALO's product portfolio stand the TeraStation NAS devices which are specifically designed to bring Enterprise storage to the SMB. LinkStation NAS are the ideal centre of the digital home and offer private users an easy way to store, centralise, access and share their files.

BUFFALO's strong international industry alliances with companies such as Intel, Broadcom™, Nintendo and Microsoft have allowed it to lead the industry in the development of the latest technologies into practical tools for the business and the home.

Headquartered in Japan, BUFFALO has offices in The Netherlands, USA and Taiwan.
