Pair

Get Paired

The first time you power on your headphones, the pairing process begins.

- 1 Slide the power switch on. You hear "pairing" and the LEDs flash red and white.

- 2 Activate **Bluetooth®** on your phone and set it to search for new devices.
 - **iPhone Settings > Bluetooth > On***
 - **Android Settings > Bluetooth: On > Scan for devices***

NOTE *Menus may vary by device.

- 3 Select "PLT BBGO800 Series."
If necessary, enter four zeros (0000) for the passcode or accept the connection.
Once successfully paired, you hear "pairing successful" and the LEDs stop flashing.

Pair second device

- 1 Slide and hold the power button towards the Bluetooth icon until the LEDs flash red and white.

- 2 Select "PLT BBGO800 Series" in your device's Bluetooth Settings.

Pair to Mac

If your Mac is Bluetooth enabled, you can pair your headset to it.

- 1 Place your headset in pair mode (slide and hold the power button towards the Bluetooth icon). You will hear "pairing" and the LEDs will flash red and blue.
- 2 On your Mac, choose **Apple menu > System Preferences > Bluetooth**.
- 3 Click Set Up New Device or "+", select "PLT BBGO800 series stereo" and follow the onscreen instructions.

Charge

Charge

It takes up to 120 minutes to fully charge your headset. The LEDs turn off once charging is complete.

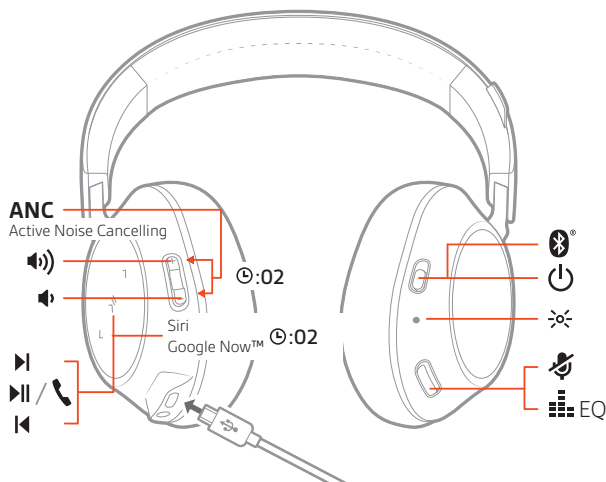

TIP To check the headset battery status, press the Power/Bluetooth button while wearing your headset. The headset must be in an idle state.

Your headset has up to 22 hours of listening time with ANC on and 28 hours with ANC off.

The basics

Headset overview

ANC	Active Noise Cancelling
	Volume up
	Volume down
	Track forward
	Play/pause music
	Track backward
	Call button
Siri, Google Now	Voice-enabled assistant
	Bluetooth pair button
	Power on/off
	Headset LEDs
	Mute/unmute
	EQ settings

Power on/off

Slide the switch to power on or off.

Play/pause music

Tap the Play/pause button.

Track selection

Tap the Forward button or Back button to control the track selection.

Activate voice assistant

If your smartphone has a voice-enabled assistant, press and hold the Play/pause button for 2 seconds and wait for the phone prompt.

Make/Take/End Calls

Answer or end a call

Tap the Play/pause ► || button.

Decline a call

Press and hold the Play/pause ► || button for 2 seconds.

Call back last call (smartphone)

To dial the last number you dialed, double-tap the Play/pause ► || button.

Mute

While on an active call, tap the EQ/Mute button.

ANC

Active Noise Canceling (ANC) reduces external noise and enhances your music and sound quality.

- 1 Press and hold the volume up and down buttons for two seconds to turn ANC on or off.
- 2 You can further customize ANC in the BackBeat app by choosing:
 - Low: recommended for office
 - High: recommended for airplane

Set EQ

Customize your audio and cycle through the EQ modes by tapping the EQ button. You can also change the EQ thru the BackBeat app.

- **Balanced (default)** Tune frequencies to sound best across multiple genres of music with balanced lows, mids and highs.
- **Bright** Boost treble frequencies to enhance the detail and clarity of music and make speech-based content more intelligible.

Find your headset

Most headsets are found under car seats, in pockets or on a messy desk. For less obvious locations, locate your headset by sending a tone to find it.

- 1 Download the BackBeat app by visiting the Apple Store, Google Play or plantronics.com/software.
- 2 Locate your lost headset by using Find MyHeadset within the app.
