

EH-LS500B Android TV Edition

DATASHEET / BROCHURE

This Android TV Edition, ultra-short-throw laser projector with 4K PRO-UHD¹ you can stream content on a 65" to 130" image.

Open up the possibilities to bigger and more exciting home entertainment while keeping your home stylish, without a black screen permanently on the wall. The Android TV Edition EH-LS500B is distinctive in its design, performance and ability to project from close to the display area. It's easy to set up, delivers a great picture in bright rooms and offers great value with a long-life laser light source.

The big screen experience

Watch 4K content with this stylish and affordable 4K PRO-UHD¹ projector. It can be placed very close to the projection area, while creating a 65" to 130" image. Watch supersized content, without compromising on the look of your home.

A smarter way to watch

Android TV lets you stream shows, games, movies, news, sports and more². It's so easy; plug the Android TV stick into the projector's HDMI port, connect via Wi-Fi and start streaming³. Tell it what you want to watch with built-in Google Assistant voice control, or simply use the remote. With Chromecast built-in, it's easy to share content from your phone, tablet or laptop⁴. Entertainment apps such as YouTube are preinstalled, and more can be downloaded via Google Play². You can connect the stick to sound bars, headphones and gaming controllers via Bluetooth.

Easy to set-up

It has three HDMI inputs, two built-in 10w speakers and room to store a streaming device in a hidden bay at the front. Control the projector using either the included remote control or the iProjection app.

Superior picture quality

With a high brightness of 4,000 lumens and an incredible contrast ratio of 2,500,000:1, this projector delivers vivid, lifelike content and defined shadow detail with deeper blacks. The Detail Enhancement technology delivers sharp and smooth images, ensuring you don't miss a moment of the action.
