## ■ GETTING START

### • Power on/ Power off

### • Projector installation

Desktop

Ceiling

### • Image focus adjustment

Rotate the lens to adjust the focus until the projected image is clear.

Blurred Image

## • Connect to the wireless network

1. Turn on Wi-Fi by clicking “Wifi Settings” and press “OK”.
2. Select the desired network and press “OK” to confirm.

## • Bluetooth settings

1. Click “Bluetooth Settings” and press “OK”. Then, click “Add accessory”.
2. Turn on the Bluetooth switch, search for the desired device (e.g. Bluetooth speakers), and connect.

## • Four-point keystone correction

Select the best proportion for the roundness of the center circle.

- ⊙ Select
- ⊙ Adjust
- ⊙ Back
- ⊙ Reset

1. Select “Projection Image Settings” and adjust “Horizon and Vector Keystone” by pressing “OK” to confirm.
2. Adjust each corners separately until the image fits your desired shape.

- **Language selection:**

Select the language that best suits your personal preference.

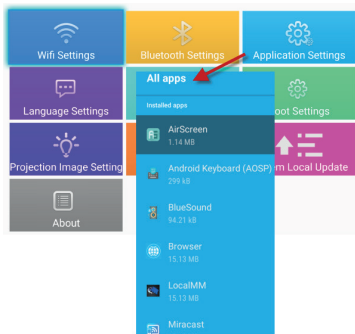

- **Date and Time setting:**

Select the preferred date and time format based on your personal preference.

- **Application settings:**

Click on "Application Settings" to view all downloaded apps and select the app you want to use.

## ■ OPERATING INSTRUCTIONS

To use Bluetooth speaker mode, please follow these steps:

1. Go to the “My apps” menu and select “BlueSound”.
2. Connect your Bluetooth speakers to the projector.
3. Ensure your mobile phone, PC or NB is paired and connected to the Bluetooth speakers before use.

## ■ PLAYBACK INSTRUCTIONS

To use Multimedia local playback, please follow these steps:

1. Go to the “My apps” menu and select “LocalMM” app.
2. Access the internal storage or insert a USB flash device formatted in FAT32.
3. Select the media file you want to playback.

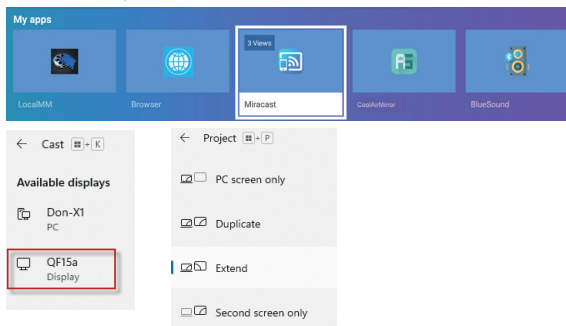

## ■ SCREEN MIRRORING INSTRUCTIONS

### • Windows system:

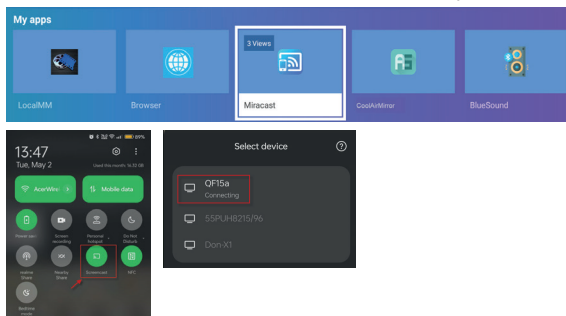

1. Go to the “My apps” menu and select “Miracast” app.
2. Press the Windows logo Key (Win+P) and (Win+K), then select the wireless display “QF15a” to start projection.

### • Android system:

Miracast:

1. Turn on the wireless display function on your mobile device.
2. Select the “QF15a” from the list of available devices to start projection.

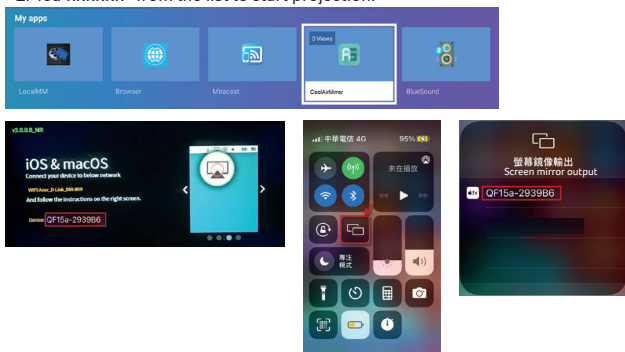

## DLNA:

1. To use DLNA streaming, download a DLNA app and connect to the same Wi-Fi as the projector.
2. In the DLNA APP, select "QF15a" as DLNA DMR/DMP and choose a file to play on the projector.

## • iOS system:

1. Ensure both your projector and mobile device are connected to the same Wi-Fi router.
2. Access the Screen Mirroring feature on your mobile device and select the "QF15a-xxxxxx" from the list to start projection.

## ■ INPUT SOURCE SELECTION

In the home page, press the "up" button twice for the source menu.

## ■ DOWNLOAD APPS FROM THE APP MARKET

## ■ Common issues and solutions

### Troubleshooting

Issues	Solutions
No power, LED off, and the projector cannot power on.	Check the power cable for loose connection.
LED on but the projector cannot power on	Check the power cable for loose connection, press the Power button to turn on the projector.
Cannot screen mirror	<ol style="list-style-type: none"><li>1. Refer to the user guide for the correct screen mirroring function.</li><li>2. Shorten the distance between the smart device and projector for better screen mirroring quality.</li><li>3. Ensure that the smart phone is connected to the correct Wi-Fi network SSID.</li></ol>
Cannot stream media	Check the internet connection for your smart device.
Remote not responsive	<ol style="list-style-type: none"><li>1. Replace remote batteries.</li><li>2. Make sure the remote control is aligned with the IR sensor.</li></ol>
Unable to power off the projector	Press and hold the Power button for 5 seconds until the projector turns off.

## ■ DISPOSAL INSTRUCTIONS

This symbol on the product or on its packaging indicates that the product must not be disposed of with other household waste. When disposing of used devices, it is your responsibility to bring it to a collection point that recycles used electrical and electronic equipment. The separate collection and recycling of used devices at the time of disposal helps to conserve natural resources and ensures that they are recycled in a manner that protects human health and the environment. For more information about recycling points for used devices, please contact your local city office, household waste disposal service, or the shop where you purchased the product.

## ■ CLEANING METHODS

Before cleaning, ensure that the power socket is unplugged. Do not use pesticides or other volatile chemicals on the projector or lens, and avoid leaving rubber or vinyl products in contact with the projector for extended periods of time, as this may damage or peel off the remaining layers.

### Cleaning the projector:

1. Use a soft and dry cotton cloth to wipe the surface of the projector.
2. Dampen a soft cotton cloth with a diluted neutral cleaner, and gently wipe the projector surface. Dry with a dry cotton cloth.
3. Do not use water, benzene, or other solvents on the projector.
4. Do not scratch the main body of the projector with fingernails or other hard objects.

### Cleaning the lens:

1. Blow off the dust on the lens surface, and wipe off any stains with a soft cloth.
2. Use a professional dryer or lens cleaning paper specifically for camera and glasses.

**REMARKS:** Do not use ordinary tissue to clean the lens. Ordinary tissue contains large particles of impurities that may scratch the lens.

### Cleaning the outlet dust filter:

Turn off the power and unplug the power cord before cleaning the outlet dust filter of vents every three months. This will prevent poor ventilation from triggering the projector LCD panel and COB protection mechanism.
