WorkForce Pro WF-8510DWF

Small to medium offices can cut costs and environmental impact, and reduce intervention, with this multifunction printer.

A small to medium workgroup A3+ multifunction printer, perfect for business environments that have traditionally used lasers and want to increase productivity and reduce downtime and waste. Epson's clean technology helps create a more environmentally friendly workplace.

Low TCO printing
Take advantage of a low Total Cost of Ownership (TCO). and print up to 4,000 colour and 5,000 mono pages[1] using easy-to-change, high-capacity DURABrite Pro ink cartridges.

Ecological
Uses up to 80% less power than competitive colour lasers[2] thanks to its no heat technology. No ozone gas is emitted, and an improved quiet print mode and no fan noise during or after printing make it ideal for the workplace. And there are fewer parts to replace than a laser.

Enhance productivity
Print at up to 34 pages per minute (ppm) in both colour and mono, with ISO print speeds of 24 ppm for both[3]. The WF-8510DWF delivers automatic double-sided A4 and A3 printing for eco-friendly and business-quality results, and features one-pass duplex scanning and a 50-sheet Automatic Document Feeder. Scalable optional paper trays take its maximum capacity to 1,831 sheets.

Built for business
PrecisionCore technology powers the output quality and reliability at the speeds required for office and industrial printing. A smartphone-like 12.7cm colour touchscreen is easy to use, while scan-to functions, including Microsoft SharePoint[4], and LDAP address book compatibility make it easy to share documents. Also securely print using a PIN code to release confidential documents, or use Email Print for Enterprise[5] to securely send documents directly to the multifunction printer.
