

# FlexDesk 630N

document holder and writing slope

 BAKKER ELKHUIZEN

Work Smart - Feel Good

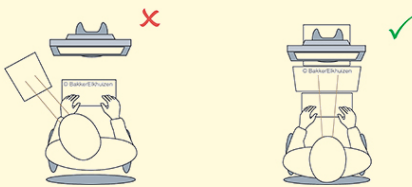

## An in-line workstation optimises comfort

FlexDesk 630N flexible document holder lets the user change back and forth between writing and computer work easily and efficiently.

An in-line workstation limits neck and shoulder strain.

To prevent neck rotation, documents have to be placed between the keyboard and display screen. A sloping work surface reduces flexion of the neck and thus increases work comfort.

**Multifunctional:** document holder and writing slope, working simultaneously with documents and computer

**Quality:** white work surface, easy gliding rails, cabin for pencils, rigid (5 mm thickness acrylic)

**Creates an in-line workstation:** document holder is placed between screen and keyboard, that prevents undue head and neck movements

**Height adjustable (115 - 175 mm):** good alignment to the screen

**Handy:** allows full-size keyboards to be stored, space under front side: 55 mm
