

Linx 8²⁰

Big things can be done in small packages.

The Linx 820 places the power of Windows 10 in the palm of your hand and lets you take your PC everywhere. Small, slim and light without lacking performance, the latest Intel Atom x5 processor delivers impressive power and dual-band Wi-Fi for better connectivity, letting you get the most from all of the great features in Windows 10 to work, play and create all on the beautiful 8" display.

Powerful and portable.

Whatever you need to do, the Linx 820 delivers powerful performance that lets you get things done anywhere. Whether you are working on your business documents, keeping track of emails, or just surfing the web and streaming videos, the Linx 820 makes your PC so portable you can hold it in one hand.

Introducing the Linx Connector.

The unique Linx Connector lets you expand your experience with compatible Linx tablets and accessories. Take your tablet further by simply docking your Linx 820 into the Linx ViewHub to bring a full desktop PC, Smart TV and gaming console experience to your tablet.

Blockbuster Gaming.

The Linx 820 combines with the power of In-Home streaming to take blockbuster games and place them in your hands. From casual gaming to intense multi-player scenarios, just connect your controller, setup your network and login details, then enjoy the very best gaming experiences whether streamed directly from your Xbox One console, gaming PC setup with a Steam account, or downloaded directly and installed from the Windows Store or other digital game stores.
