

KEYBOARD? GAMEPAD? WHY NOT BOTH?

The MK850 Mechanical Gaming Keyboard is fully featured with exclusive Aimpad technology for analog control. Transition seamlessly from MOBA to FPS to driving games and even flight sims with unprecedented control on a cluster of eight keys (QWER + ASDF).

Feature packed with Cherry MX switches for durability, Precision Wheels for easy in-game adjustments, and brushed aluminum to last through all your battles. Combined with removable Type-C cable, magnetic wrist rest, and per-key RGB backlighting, the MK850 is the next step in gaming technology.

It's a game-changer - literally.

FEATURES

- Cherry MX Switches** - Dominate in any type of game with 100% genuine Cherry MX switches good for 50 million keystrokes. All the responsiveness, accuracy, and tactile satisfaction you can handle.
- Aimpad Technology** - Analog control right on your keyboard. Make slight adjustments or course corrections minus the jerky tapping of traditional keyboards. Get fine-tuned WASD movement without having to sacrifice your mouse for a controller or steering wheel.
- Precision Wheel** - Two customizable Precision Wheels let you adjust volume, RGB brightness and other functions.
- RGB Illumination** - Full RGB per key illumination and understated lightbar makes this keyboard a perfect 10 in appearance
- Dedicated Macro Keys** - Five dedicated Macro keys with five levels and four profiles for easy switching on the fly
- Dedicated Multi-media keys** - Adjust volume, RGB lighting, and windows key lock - all right from your board
- Detachable USB Type-C Cable** Keep your gear portable and future-proofed with a Type-C cable.
- Quality Construction** - Utilizing only the best of the best materials such as high-grade anodized aluminum
- Wrist rest** - Give yourself some much needed comfort to your extended gaming sessions with an attachable wrist rest powered by magnets

FEATURE HIGHLIGHT

Aimpad Technology – Exclusive two year partnership that gives you the total analog movement control in games for the next best competitive edge. While maintaining the use of quality known German made Cherry MX Switches instead of alternative, non-proven switches. And do you not want to use it? A dedicated ON/OFF button is there and the switches are registered like any other mechanical cherry mx red keyboard!

Two dedicated **Precision Wheels** that can be adjusted to any function or feature that you want. Want to control you headsets audio or want to mouse scroll or on-the-fly adjust the color of your M800 Peripheral set? The only limit is your imagination!

Full RGB – 16,7million color compatible with per key illumination, three zones of lightbar and all adjustable by On-the-Fly presets and controls or the new Cooler Master unified Software Package!

Make It Yours.
