

USB Stereo Headphone & Microphone

DH-660-USB Skype® compatible overhead Headset

Introduction

Continuing with the success of the popular DH-660 3.5mm Phono jack Stereo headphones, Dynamode is pleased to announce the new Plug n' Play USB version of our family of Stereo headphones.

The **DH-660-USB** is a fully featured over-the-head Stereo Headphone system using our ClearSound™ audio technology to give great audio feedback no matter what audio applications and is the perfect partner for Business, MP3 or for just creating an exciting sound experience for the latest Games.

Fully integrated is the new in-line handheld control which takes care of all popular audio functions including VOLUME, SPEAKER MUTE, MICROPHONE MUTE together with status LEDs

With it's built-in Microphone for VoIP applications like Skype®, this premium Stereo Headset bundle has remarkable features for an even more remarkable low price point.
