

BenQ Corporate Laser Projectors

Let Your Innovation Shine through True Colors

Enlighten the Next Generation of Trend Leaders

Because it matters

Are Your Meetings as Effective as They Should Be?

The hours employees spend in meetings continue to grow. Every day there are at least 25 million corporate meetings held in the United States alone, and by some estimates that number may be as high as 55 million. Middle management spends over 35% of working hours in the meeting room, and upper managers often spend half their time there. Meetings take up a large chunk of a corporation's collective time, but are these meetings efficient?

25-55 million meetings everyday

Frustration-Free Design

Efficiency is also affected by invisible factors. One company conducted a survey and found that 69% of presentation teams have encountered technical issues in the meeting room and on average those problems took over 30 minutes to solve. If a meeting is scheduled to last one hour, this means over half of the allotted time is wasted before the meeting even starts. Problems encountered range from everyday issues like extended startup times, mismatched adapters, and poor audio and video quality, to serious

issues such as overheating and even complete device failure. These issues aren't minor: one study showed that tech issues in meetings could cost a company with 250 employees over \$250,000 a year in lost productivity. With a BenQ Corporate Laser Projector, an organization's meetings will start on time more often and experience fewer hiccups. Powering up quickly, running cool, and featuring easy plug-and-play presentation capability, BenQ Corporate Laser Projectors facilitate smooth meetings and make sure that employees' time is well spent.

- ❄️ Run cool
- 🔌 Feature easy plug-and-play

Productivity-Boosting Image Clarity

When image quality is poor, employees have trouble focusing. One study showed that frustrations with display quality could reduce motivation and effort while also increasing anxiety. Accurate, bright color is also important for keeping employees on task, and it's been shown that presentations with colorful content and plentiful visual aids can help employees retain information 82% more effectively. BenQ Corporate Laser Projectors, which use discrete lasers for each of the primary hues, are capable of producing stunning 4K visuals with a wide color gamut. Clear text, vibrant images, and precise color gradients will ensure everyone stays focused and efficient.

No Hidden Expenses or Recurring Costs

Finally there's the issue of consumable cost. Although laser projectors require a higher initial investment, in the long run laser technology is virtually guaranteed to lower TCO. BenQ Corporate Laser Projectors are no exception, delivering greater savings as usage time increases. Whereas a lamp-based projector will need its bulb changed 10 times over 20,000 hours of use, BenQ Corporate Laser Projectors never require bulb replacement. After accounting for the base price and the cost of replacement bulbs, a lamp-based projector of comparable lumen output will cost twice as much to operate and maintain over the course of its life. And that's even not accounting for associated labor costs – one study showed that an organization with 400 projectors could spend up to 7.5 man-weeks every year just replacing bulbs.

VS

BenQ Laser Projector

0 bulb changes

Laser projectors have been battle-tested in meeting rooms around the world and are continuing to become more efficient and affordable every day. Replacing a lamp-based projector with a BenQ Corporate Laser Projector is no longer just a forward-thinking choice. Because of the savings delivered by dramatically improved image quality, efficiency-boosting features, and drastically reduced maintenance costs, BenQ Corporate Laser Projectors are also the best choice for an organization's bottom line.

Be Honest : Questions Every Business Needs to Ask

Question 1

Are Our Meetings Impactful and Effective?

Workplace Trends

82%

Colorful presentations with plentiful visual aids help employees retain information 82% more effectively

Clear, legible text can boost focus and increase employee attention spans

Issues You Should Consider

- ✓ Does your business use lots of infographics in presentations?
- ✓ Are the images clear enough?
- ✓ Is text easy on the eyes?
- ✓ Is your meeting equipment maximizing the impact of your presentations?

Features You Need

- BlueCore Technology
- Dual Color Wheels
- Ultra-High Contrast
- Exclusive Infographic Mode
- 4K Resolution
- Constant Brightness Mode
- LumiExpert™ Ambient-Light Detection

Question 2

Is Our Meeting Room Equipment User-Friendly?

Workplace Trends

74%

74% of IT department managers believe that BYOD improves employees' productivity

50%

Today more than 50% of employees are asked to bring their own device

Presentation teams frequently encounter technical issues that drastically cut into productive meeting

Issues You Should Consider

- ✓ Does your meeting equipment allow employees to BYOD?
- ✓ Does your meeting room have a wireless projection option?
- ✓ Is connecting your meeting projector to a PC or smart device a hassle-free process?
- ✓ Is your meeting equipment protected from the security risks BYOD can introduce?
- ✓ Do your meeting equipment start up and turn off quickly?

Features You Need

- InstaShow™ Press-and-Show Presentations
- 4K Resolution
- QCast Network Presentations
- Constant Brightness Mode
- QCast Mirror for Simple Sharing

Question 3

Can We Reduce Recurring Costs?

Workplace Trends

Laser Projector

Laser projectors use no consumables

Lamp Projector

Equipment requires frequent, expensive repair time

The labor costs of replacing bulbs

Issues You Should Consider

- ✓ Is your business experiencing a transition period and replacing lots of old equipment?
- ✓ Considering the equipment and labor costs involved, is completely overhauling everything once a decade sustainable?
- ✓ How can your business reduce the cost and frequency of equipment replacement?

Features You Need

- 20,000-Hour Lifespan
- Life-Extending Economic Mode
- Dustproof Design
- DLP Technology for Color that Never Fades

The Secret to Impactful Meetings : BlueCore Technology

The #1 DLP brand in the world, BenQ has designed the Corporate Laser Projector to offer brightness, durability, and performance that far outstrip the competition.

Superior Brightness

Precision-Aligned High-Output Laser Source

The zero-deviation alignment of BlueCore laser diodes boosts luminous flux into the light tunnel, improving efficacy.

Superior Performance

Secondary Yellow-Infused Color Wheel

The dual synchronized BlueCore color wheel utilizes an additive yellow segment, stimulating precise RGBY spectra for optimal chromatic performance.

Superior Durability

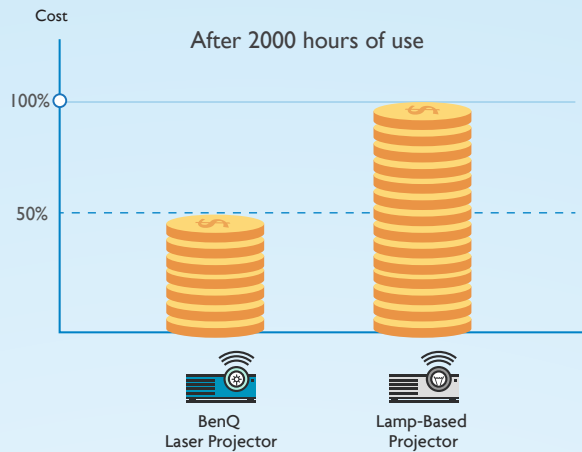

Hermetically Sealed DLP Chip

Comprising over two million micromirrors that reflect pure light through the color wheel, the DLP chip is hermetically sealed so that it can resist heat for over 100,000 hours without degradation.

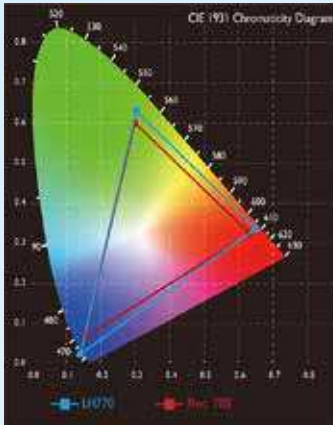

20,000 Hours of Maintenance-Free Performance

BenQ Corporate Laser Projectors, rated to run 20,000 hours without requiring any consumables, are a reliable and affordable long-term choice. After accounting for upfront price and consumable costs, the BenQ Corporate Laser Projector can deliver savings of over 50% over the course of its life versus a conventional projector*, and the absence of consumables also makes maintenance a breeze.

*Savings calculation based on the price of a lamp projector with the same lumen output and nine replacement bulbs. (Labor cost not included.)

High-Performance Dual Color Wheels

Equipped with a powerful dual color wheel projection system, BenQ Corporate Laser Projectors offer unparalleled color performance. Capable of producing 90%* of the colors in the Rec. 709 standard, the BenQ Corporate Laser Projector ensures that images look just as bright and brilliant on the big screen as on a smaller LCD monitor.

*Exact percentage may differ depending on model.

Instant On/Off and Signal Detection

BenQ Corporate Laser Projectors start up extremely quickly and don't need to warm up or cool down, thereby saving time and boosting meeting efficiency. And for added convenience, the projector can be set to automatically power on when it detects a VGA or HDMI signal, making it the ultimate plug-and-play device.

Signal Power On

The Center of Attention : Best-in-Class Image Quality for Eye-Catching Presentations

Exclusive Infographic Mode

All BenQ Corporate Laser Projectors feature an advanced Infographic Mode that's perfect for enlivening the graphics and stylish text used in modern presentations. Infographic Mode offers enhanced brightness and better color gradation for eye-friendly presentations that are guaranteed to make idea-sharing more precise. Meanwhile, the additional Vivid Mode is a great choice for emphasizing colorful imagery when displaying video or photos.

Stunning 4K Resolution

Built to project in 4K resolution, BenQ Corporate Laser Projectors ensure HD images will look crisp, show more detail, and make content incredibly clear.

*Available on select models

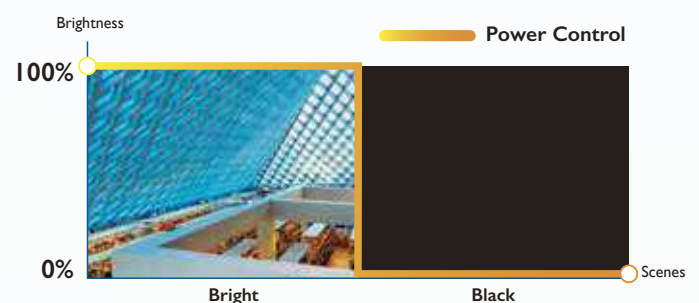

Conference Room-Ready Brightness

With the power of BlueCore technology, there's no longer any need to turn off the lights during a presentation. Offering up to 5000 lumens of brightness, BenQ Corporate Laser Projectors are capable of delivering clear images in comfortably lit spaces, boosting participants' focus and making images clearer for people sitting in every corner of the room.

Ultra-High Laser-Powered Contrast

BenQ Corporate Laser Projectors offer a native contrast ratio of 20,000:1 to deliver blacks that are true, colors that are rich, and details that are strikingly clear. Extra-deep blacks are essential for making dark scenes look realistic and high contrast ensures that employees' presentations look vivid and crisp.

LumiExpert™ Ambient-Light Detection

BenQ's LumiExpert™ can automatically detect the ambient light conditions of a meeting room and maximize clarity and comfort. Whether presenting in a dark boardroom or a brightly-lit office, LumiExpert™ makes sure the BenQ Corporate Laser Projector delivers peak performance.

*Available on select models

Constant Brightness Mode

BenQ Corporate Laser Projectors are designed to maintain high brightness levels over the long term and are capable of delivering 80% brightness and displaying clear, crisp images for years on end.

*Available on select models

Digital HDMI Output for Multi-Screen Projection

For presentations that want to make an extra impact, multiple projected screens can be used to create an immersive viewing experience that enraptures the audience. Whereas conventional projectors provide an analog VGA output that's subject to signal decay, BenQ Corporate Laser Projectors deliver a perfect digital signal via HDMI. The Corporate Laser Projector can output directly to other projectors or HDMI-compatible devices with no signal degradation, making mirrored images just as eye-catching as the originals.

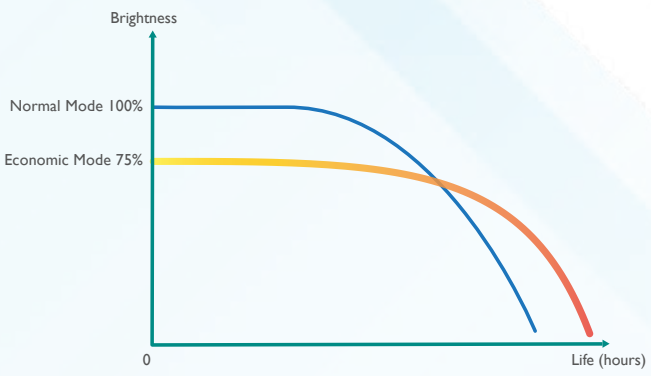

*Available on select models

A Reliable Presenter : Cost-Effective, Maintenance-Free Performance

Impressive 20,000-Hour Lifespan

Even after years of daily use, BenQ's Corporate Laser Projectors will continue performing nearly like new. Because BenQ's BlueCore laser technology resists color decay, its Corporate Laser Projectors are ideal for situations where powerful color performance and consistently reliable projection quality are desired.

Life-Extending Economic Mode

Economic Mode can help the projector continue to work beyond its rated lifespan. It's perfect for situations when maximum brightness isn't necessary, such as when the projector is used in a dark meeting room or a small private office.

DLP Technology for Color that Never Fades

With BenQ's 1-chip DLP design, which can perform for over 100,000 hours without degrading, BenQ Corporate Laser Projectors can deliver lifelike colors and sharp, clear text for years or even decades.

BenQ DLP Projector

Non-DLP Projector

Comprehensive Dustproof Design

Featuring sealed laser modules and an automatic dust removal system, BenQ Corporate Laser Projectors are designed to offer reliable, long-term performance in many different environments and usage scenarios.

Sealed Engine

BenQ Corporate Laser Projectors are designed with sealed laser modules and enclosed light engines to protect the DMD chip, color wheel sensor, laser bank, and other optical components. The design has been rigorously tested and certified for compliance with the JIS Class IP5X standard.

Anti-Dust Accumulation Sensor to Resist Dust Buildup

Traditional color wheel sensors frequently accumulate dust that can block the IR signal and cause flickering, abnormal colors, and even complete device malfunction. By incorporating a sensor with an ingenious design that prevents dust buildup, BenQ Corporate Laser Projectors offer prolonged optimal performance.

No Limits : Instant Wireless Presentation and Easy Idea Sharing

Press-and-Show Presentations with InstaShow™

The Streamlined Solution for Large Meetings with Multiple Presenters

Instantly turn any meeting room into a wireless-friendly environment with InstaShow™, the ultimate tool for sharing opinions quickly and making meetings smoother. BenQ's InstaShow™ WDC10 is a plug-and-play, zero-software solution that allows up to 16 participants to present from any device – PC, Mac, and more. InstaShow™ also supports both the 128-bit Advanced Encryption Standard (AES) and WPA2 authentication protocol to ensure that corporate intellectual property remains private and safe from tampering or unintended disclosure.

Network Presentations with QCast App

Wireless Presenting Made Easy

When BenQ M7 Series Corporate Projectors are paired with the WDRT WiFi dongle and QCast app, presentations can be delivered wirelessly or via network connection from a PC or smart device. The split-screen feature allows multiple users to share the screen at once and easy management tools facilitate effective meeting control. The QCast app also offers live internet connectivity that makes it easy to browse the web and share online info quickly.

* Available on MH733 / MW732 / MX731 when paired with optional USB wireless dongle WDRT8192.

Simple Sharing with QCast Mirror

The Perfect Partner for Impromptu Meetings and Sharing Information Quickly

In a corporate environment where employees' BYOD needs continue to grow, BenQ's QCast Mirror HDMI Wireless Dongle offers the perfect solution. Requiring no software or app installation, QCast Mirror lets employees quickly and conveniently mirror their screens and share smooth Full HD content, including videos, documents, and live camera feeds, from any compatible device.

* Transmission quality is dependent on the Wi-Fi environment and the device's compatibility with mirror functionality.

Please visit <https://business-display.benq.com> for the list of compatible devices.

Here, There, Anywhere : Flexible Installation Options Even in Restricted Spaces

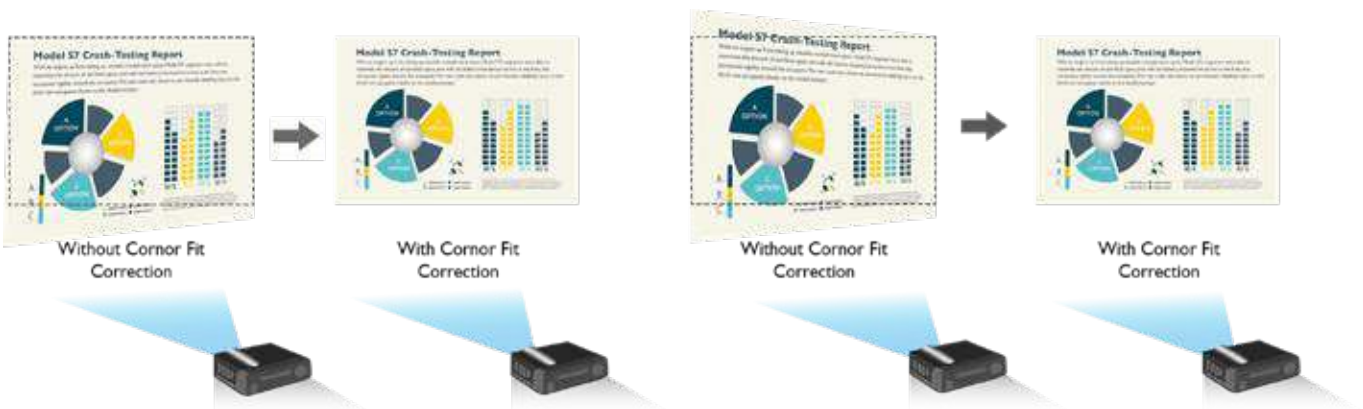

360° Rotation Capability

BenQ Corporate Laser Projectors, which can be installed at any angle, are an ideal solution for projecting images onto ceilings, floors, angled walls, and other surfaces. This 360° projection capability* also makes BenQ Corporate Laser Projectors great for fitting into restricted spaces.

*Available on select models

Advanced Image Calibration

In cases when it's installed off center, the BenQ Corporate Laser Projector can counteract the trapezoid effect with two-dimensional keystone correction that allows vertical and horizontal adjustments of up to $\pm 30^\circ$. Meanwhile, the Corner Fit control allows users to adjust each corner of the projection independently, making it easy to achieve perfect image geometry.

Big Zoom and Lens Shift

Built with wide zoom range and shifting lenses, BenQ Corporate Laser Projectors can present perfectly aligned images in nearly any environment. Lens shift allows for ample vertical and horizontal adjustments with no sacrifices to image quality, while the big zoom feature provides extra flexibility when installing the projector on an existing mount or in a restricted space where other objects like ceiling lights limit installation options.

*The throw distance will vary depending on the projector.
Image shows the BenQ LU950

Digital Image Shrinking and Shifting

Digital image shrinking lets installers shrink the image to 75%** of its original size with precise 0.5% increments. Meanwhile, in cases when images are improperly aligned or otherwise out of place, image shifting lets installers make changes without reinstalling or physically adjusting the projector.

* Available on select models
** Percentage may vary by model

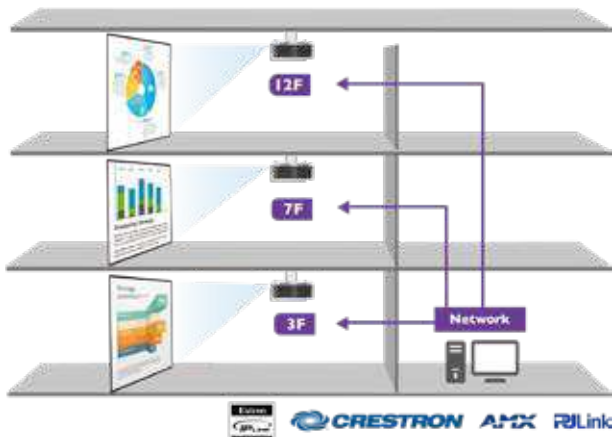

Image Memory

Image memory lets installers save reference images directly to the projector. By allowing installers to calibrate the device using references they trust, the BenQ Corporate Laser Projector eliminates the need for external image sources that may have inaccurate colors or improper dimensions.

* Available on select models

The Power of One : Single-Finger Device Management

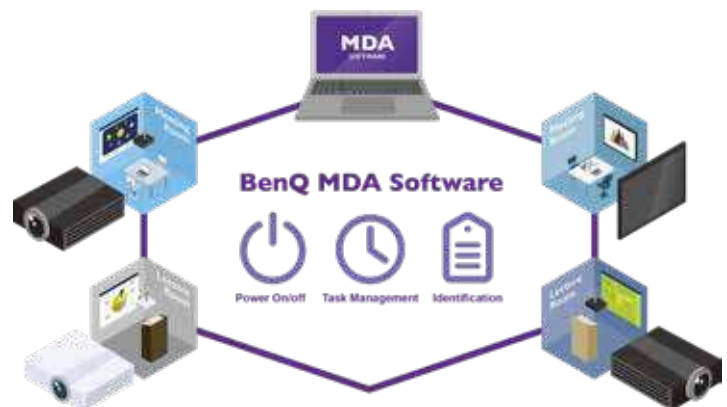

Extensive System Compatibility

BenQ Corporate Laser Projectors are compatible with an assortment of control systems, including Extron, Creston, AMX, and PJ Link. This makes it easy to integrate BenQ Corporate Laser Projectors into existing systems and get everything running smoothly in no time.

BenQ's Exclusive MDA Software

BenQ's Multiple Display Administrator (MDA) software empowers corporations to efficiently handle the operation and maintenance of an entire network of projectors from one centralized location. With its powerful scheduling features and remote on/off capabilities, MDA can streamline how BenQ Corporate Laser Projectors are used in offices and meeting rooms while also lowering TCO.

Centralized Upgrade Application for Multiple Projector Maintenance

Administrators can centrally upgrade firmware on multiple BenQ projectors that are on the same local network via LAN, deploying the latest updates to up to 253 devices at once. This new application can upgrade firmware with a friendlier interface.

*For more information about the tool, please contact BenQ service.

Environment Notice

*LightSource life results will vary depending on environmental conditions and usage. Actual product's features and specifications are subject to change without notice.

*All related Optical Value is measure by Standard Lens.

*The Contrast is measure by Full On Full Off standard.

Wireless Presentation Device

Model Name	InstaShow™ (WDC10)			
General Specifications	Color	Black	Data Rate Wireless	Up to 400Mbps
	Support Platform	Windows, MAC, Chrome. Any OS supports HDMI standard 1.4	Authentication Protocol	WPA2 (WPA2-PSK (Pre-Shared key) / WPA2-Enterprise)
	Video Outputs	HDMI 1.4, comply with HDCP	Security (encryption)	AES 128 bit
	Frame Rate	Up to 30 fps depending on environment	Reach	Max. 8m between InstaShow Button and InstaShow Host
	Output Resolution	800 x 600, 1280x720 (720P), 1024 x 768 (XGA), 1280 x 768, 1280x800(WXGA), 1280 x 1024, 1280 x 960, 1360 x 768, 1440 x 900, 1400 x 1050, 1680 x 1050, 1920x1080 (1080p)	Temperature Range	Operating: 0°C to +40°C (+32°F to +104°F) Storage: -10°C to +60°C (+14°F to +140°F)
	Input Resolution	Up to 1920x1080		
	Simultaneous Connections	16 pcs	Humidity	Operation: 10% to 80% relative humidity, non-condensing Storage: 5% to 90% relative humidity, non-condensing
	Audio	Stereo, Radio quality 16 bits 48KHz		
	Wireless	IEEE 802.11ac, 5GHz, 2T2R		
InstaShow Package	InstaShow Button	x2	Adapter	x1
	InstaShow Host	x1	Velcro Strap (black)	x1
	Cradle	x1	Quick Start Guide	x1
	USB Power Cable	x1 (150cm, USB Type A 3.0, micro USB)	Safety Statement	x1
	HDMI Cable	x1 (80cm)	Double-side Sponge Tap	x1
	USB Power Cable	x1 (80cm)	Rubber Feet	x4
	Antenna	x2 (Black)	Screws	x4
InstaShow Button	Cable	USB Type A, HDMI Cable	Power Supply	DC 5V±10%, 0.9A
	Reset Button	x1	Power Consumption	Normal: 4.5W
	Mode Key	x1	Dimension (WxHxD)	84.5 x 298 x 19.9mm
	LED	*Red (boosting), Green (wifi connected), Blue (presenting)	Weight	100g
InstaShow Host	Power Button	x1	DC Power Jack	x1 (micro USB)
	Paring Key	x1	Power Supply	DC 5V±10%, 1.5A
	LAN	x1(10/100 Mbps)	Power Consumption	Normal: 5W Network standby: 2W HDMI standby: 0.02W
	Video Output	x1 HDMI 1.4 (video and audio)	Dimension (WxHxD)	110 x 110 x 27mm (99mm with antenna)
	LED	*Red (boosting), Green (ready for connection), Blue (presenting)	Weight	150g (with antenna)
InstaShow Cradle	Dimension (WxHxD)	85 x 97.5 x 170.4 mm	Weight	630g
InstaShow Cradle	InstaShow Button	x2		
	Cradle	x1		
	USB Extended Cable	x1 (80cm)		
	Quick Start Guide	x1		
	Safety Statement	x1		

Notes

*Please find detail LED behavior in the user manual.

**Wireless connection speed depends on wireless environment.

***You may purchase optional InstaShow Button Kit for up to sixteen users in your meeting room. Please contact local dealers for more information.

Model Name	QCast Mirror HDMI Wireless Dongle QP20			
General Specifications	Dimensions(W x H x D)	84 x 11 x 32 mm	Frequency Band	2.4G/5G* (default setting)
	Input Terminals	Micro USB	Color	White
	Output Terminals	HDMI 1.2	CPU	AM8252
	Weight	30g approx.	DRAM	DDR3 128MB
	Wireless Standard	IEEE 802.11a/b/g/n/ac	NAND	128MB
	Security	WPA/WPA2		
	LED	Blue LED indication for Power and WiFi status	Power	DC 5V/1A, through Micro USB port
	Output Resolution	1280x720 @60hz 1920x1080 @30hz 1920x1080 @24hz	Video Support	Max. 1080p@30p video decode
	System Requirement	PC	Windows: OS Windows 8.1 and later with Miracast support * Mirror Screen support depends on Wi-Fi module and graphics chipset.	
Mac OS: Mac OS X 10.11 and above with Mirror Screen support *Recommended Models: Mac Book series and iMac series after E/2015				
Tablet/SmartPhone		iOS: iOS9.3 and later with Mirror Screen support		
		Android: Android 4 above with Mirror Screen support WindowsPhone: Windows Phone 8.1 and later with Mirror Screen support		

Notes

* 5G Wifi only support Band1 (5.150-5.250GHz)

* Please make sure your device is upgraded to the latest version of OS which supports the mirror function.

* Transmission quality depends on the Wi-Fi environment and the mirror function's compatibility with different mobile devices. To ensure the best transmission quality, click here to check the list of compatible devices.
