## NEW PRODUCT ANNOUNCEMENT

### Video Wall Solutions

# Wall-Mount and Rolling Cart Video Walls Bring Flexibility to Digital Signage

Model: DMCVW4555X2

Dual-screen cart supports the creation of a mobile video wall.

#### Perfect for:

Lobbies and other public areas in hotels, offices, airports, theaters and convention centers.

Video walls are an effective way to make announcements and provide essential information in public spaces. Tripp Lite's new video wall solutions accommodate flat-panel displays to create professional-quality video installations.

Using multiple smaller screens instead of a single extra-large screen gives installations more flexibility. Messages can extend across all screens, appear in a sequence on the screens or have different content for each screen. Smaller screens are also easier to mount, easier to replace and are more cost effective than an extra-large display.

### Key Benefits

#### BROAD COMPATIBILITY

- Models are available for flat-panel displays from 45 to 70 inches.
- VESA-compliant mounting brackets provide no-hassle display installation. Dual- and quad-screen models have display brackets with quick-release straps for simplified mounting.

#### VERSATILITY

- Wall-mount model holds a single display. Group as many as needed to create a custom viewing surface.
- Dual- and quad-screen carts have swivel casters for smooth rolling. Locking feature keeps the video walls in position while at rest.

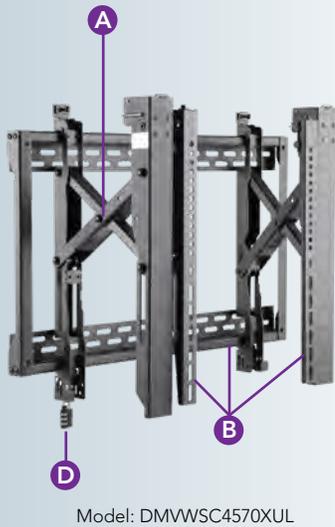

#### VIEW OPTIMIZATION

- Micro-adjustability makes it possible to align all the screens in an installation.
- Wall-mount model has a pop-out design to provide space to access cables or make adjustments during installation and maintenance.
- Dual- and quad-screen carts have mounting plates that can be installed at almost any height along the support columns.

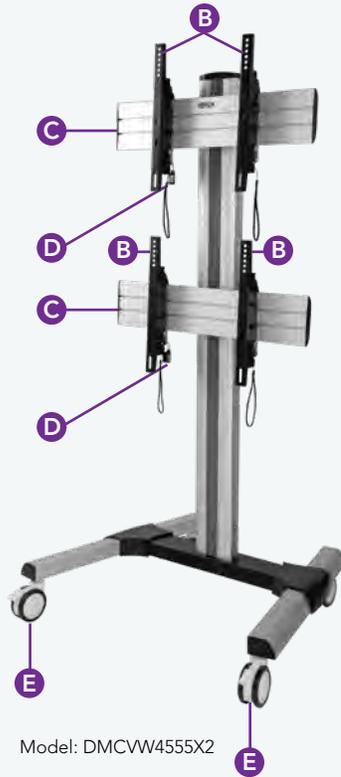

#### THEFT DETERRENCE

- Three-position combination locks (included) secure the display brackets to the mount to deter theft of the displays.
- Dual- and quad-screen carts can be stored in a secure area.

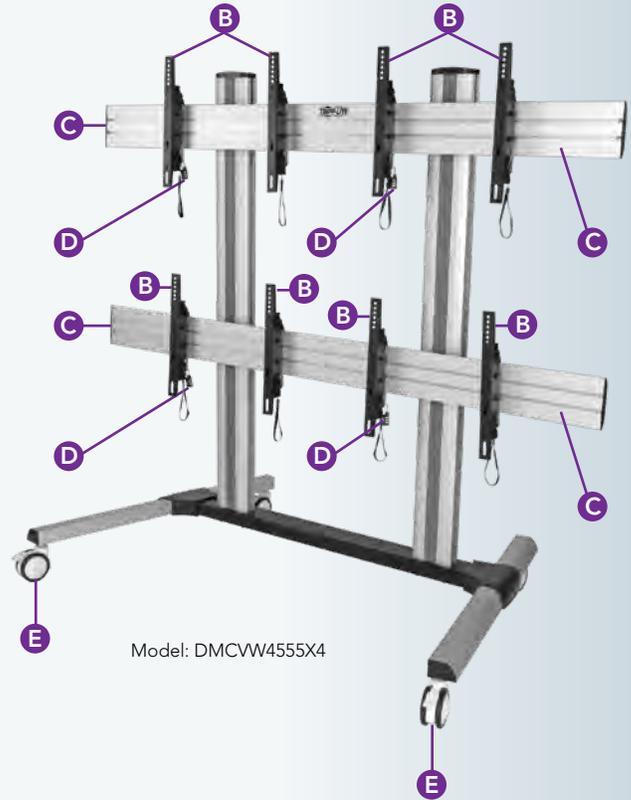

## Feature Focus

Model: DMVWSC4570XUL

Model: DMCVW4555X2

Model: DMCVW4555X4

### A Pop-Out Extension

### B VESA-Compliant Mounting Brackets

(DMCVW4555X2 and DMCVW4555X4 brackets have quick-release straps)

### C Height-Adjustable Mounting Plates

### D Combination Lock(s)

### E Locking Swivel Casters

Not shown: Cable management openings in the rear of the main column(s) on DMCVW4555X2 and DMCVW4555X4.
