## KEYSPAN

### Keyspan by Tripp Lite

*Keyspan® products provide elegantly simple solutions for difficult problems, whether you need to control your presentation from across an auditorium, turn up your favorite song from another room or use your essential serial devices on computers without serial ports.*

- Presentation Remote Controls
- Multimedia Remote Controls
- USB/Serial Adapters

*Smart Solutions That Simplify Your Life*

## Presentation Remote Controls

- ▶ Simple, Intuitive Operation
- ▶ Plug-and-Play Installation
- ▶ Long-Range RF Wireless Technology – Does Not Require Line of Sight
- ▶ Built-in Laser Pointer
- ▶ Compact USB Receiver
- ▶ PowerPoint® Keystroke Compatibility
- ▶ Convenient Battery Replacement

### Simple, Intuitive Operation

Keyspan Presentation Remote Controls put all the commands you need at your fingertips, without unnecessary clutter that will get in your way. With cleverly optimized, intuitive controls simple enough for novices and powerful enough for presentation professionals, you're free to concentrate on your topic, interact with your audience and get your point across.

### Plug-and-Play Installation

Easy USB connection and no required software make installation a snap. And since your remote mimics a USB keyboard, it will work with almost any platform you're likely to encounter.

### Long-Range RF Wireless Technology

RF wireless technology allows you to roam the room and control your presentation software through furniture, doors or walls from up to 100 feet away. Even in large auditoriums and crowded spaces, you can be confident that your commands will reach your computer every time, without any embarrassing hiccups.

### Built-in Laser Pointer

Highlight presentation details with ease using the built-in laser pointer, available at the touch of a button.

### Convenient USB Receiver

The compact USB receiver connects to any USB-equipped computer. If there's a conflict with another remote, you can change the unit ID to eliminate interference.

### PowerPoint Keystroke Compatibility

Control Microsoft® PowerPoint and compatible presentation software using the designated presentation command buttons, ensuring easy operation and reliable results.

### Convenient Battery Replacement

The included batteries are user-replaceable, affordable and easy to find. You won't need to replace them often, but you can keep spares on hand so you'll always have a backup during important presentations.

### Specifications

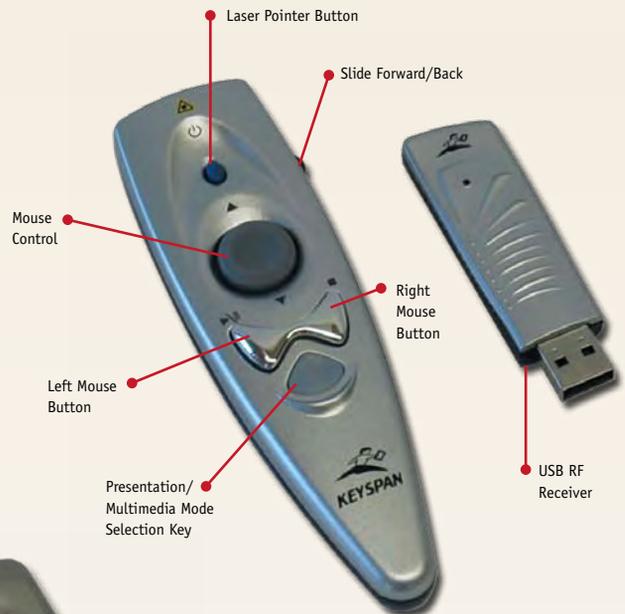

Model	Description	Range (Estimated)	Plug-and-Play Compatibility*	Laser Pointer	On/Off Switch	Mouse Control	Volume Control	Batteries (Included)	Other Features

# USB/Serial Adapters

- ▶ High-Speed Serial Ports
- ▶ Compact & Portable
- ▶ No AC Adapter Required
- ▶ Recommended by Serial Device Manufacturers
- ▶ Multi-Unit Expandable
- ▶ Microsoft-Certified Drivers
- ▶ Superior Compatibility

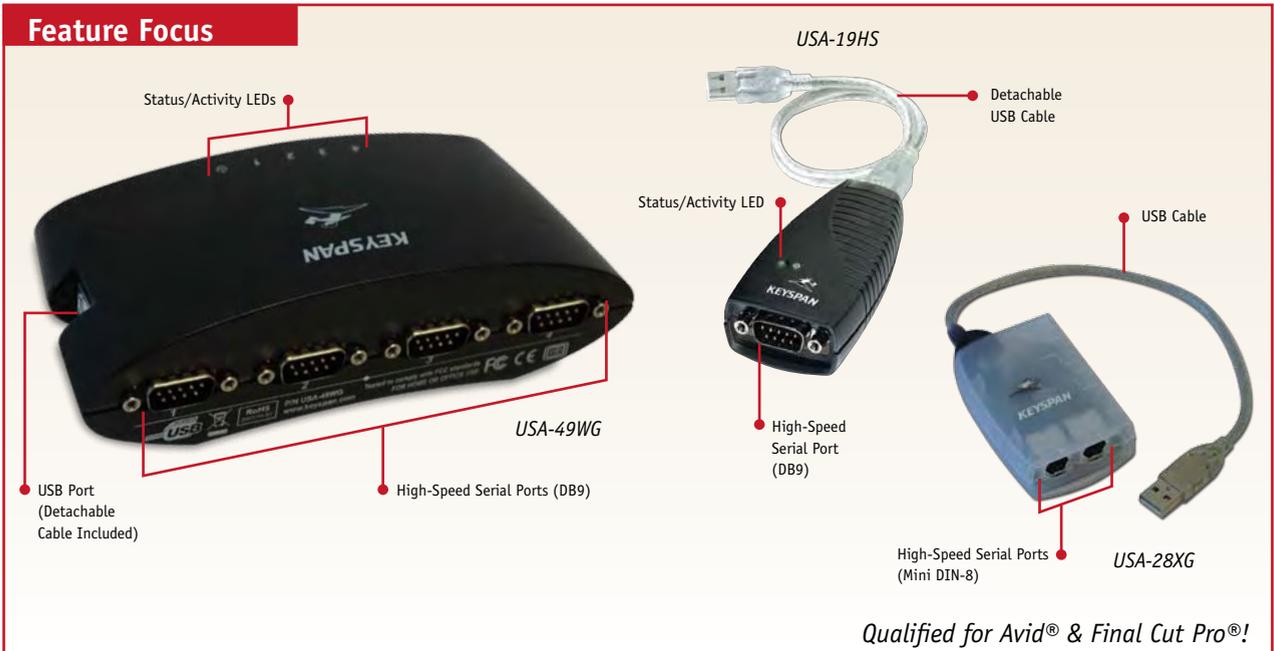

## Connect Indispensable Serial Devices

Keypspan USB/Serial Adapters connect your serial devices to USB-equipped computers with plug-and-play convenience. Connect video decks, server/router/switch console ports, graphics tablets, plotters, modems, point-of-sale devices, touch screens, GPS units, UPS systems, medical/scientific instruments, industrial process control devices, building automation devices and more.

## Enjoy Superior Compatibility

Because the serial ports adhere to standards and look like built-in COM ports to your operating system, you'll enjoy superior compatibility. Serial device manufacturers and software makers recommend Keypspan USB/Serial Adapters to keep their customers happy and prevent support calls caused by inferior adapters.

### Feature Focus

*Qualified for Avid® & Final Cut Pro®!*

### Specifications

Model	Description	Serial Ports	OS Compatibility*	Serial Protocol	Serial Data Rate	Included USB Cable Length
<b>USA-49WG</b>	4-Port High-Speed USB/Serial Adapter	4 (DB9)	Windows & Mac	RS-232	Up to 460 Kbps	6 ft. (Detachable)

USA-28XG	—	—	—	—	—	—	—	—	Unsupported <sup>(1)</sup>	8.6+	10.2.8+

Keyspan products offer plug-and-play compatibility with the listed operating systems in most cases. In some cases, compatibility requires the included driver CD-ROM or a free download. For the latest drivers, go to [www.tripplite.com/support](http://www.tripplite.com/support). All products listed require an available USB port and HID (Human Interface Device) drivers. <sup>(1)</sup> Third-party software may enable Linux compatibility, but this functionality is not officially supported by Tripp Lite. <sup>(2)</sup> Requires Mac OS X 10.3+ for volume control. <sup>(3)</sup> Tested compatible with Windows Vista and Windows 7 Home Premium and Ultimate. <sup>(4)</sup> Beta drivers available at [www.tripplite.com/support](http://www.tripplite.com/support).
