

# Home & Small Office Shredder

## 800XXC-P4 Micro-Cut Shredder

CODE: 40348

Trade Pack: 1

### Micro-cut security – Compact design

- Cuts an A4 Sheet into 1560 pieces
- 4 x 10 mm particles
- 8 sheet capacity
- 450 sheets per hour
- Slide-out 21.5 litre waste bin
- DIN level P-4/E-3 security
- 4 castors for easy mobility

Ideally suited for the cost-conscious home office or small business, this micro-cut machine can shred up to 450 sheets an hour and destroy credit cards too.

The generous 21.5 litre bin has a large viewing window, so you can see when it needs to be emptied. The slide out bin ensures hassle free emptying – and because micro-cut shredding is so fine, the bin will require emptying less often than a conventional cross-cut shredder.
