Product Description

Organisations often struggle to find reliable peripherals that contain more sustainable materials and enhance productivity without breaking the budget. Many are frustrated with keyboards and mice that lack durability, security or compatibility across different operating systems. Ideal for large-scale deployments, the KM270 EQ Rechargeable Desktop Set addresses these concerns by providing a feature-rich, wireless solution that combines functionality with sustainability. With its sturdy design and helpful productivity enhancements, the KM270 ensures all-day productivity, featuring a full-size keyboard layout with a dedicated Copilot key**, a spill-proof design, and a quiet-click mouse. * Excludes Printed Circuit Board (PCB) assembly, rechargeable battery, 2.4GHz dongle and charging cable. ** Windows only.

Features

- Contains 60% post-consumer recycled (PCR) plastic.* *Excludes PCB assembly, rechargeable battery, 2.4GHz dongle and charging cable.

- Windows and macOS compatible.

- Rechargeable 500mAh batteries supports up to 4 months of productivity with a single charge.

- Full size keyboard with dedicated Copilot Key*. *Windows only.

- Sealed membrane keyboard design protects keyboard electronics against spills.

- LED indicators offer visual confirmation for battery life, Num Lock, Caps Lock, Scroll Lock and pairing status.

- Quiet-click ambidextrous mouse reduces noise in busy workspaces and is comfortable for right and left-handed users.

- Meets MIL-STD-810H Method 504.3 Contamination by Fluids with disinfectants with no degradation.* * No visual degradation or inability to use as directed upon test completion.

- 3-Year limited warranty.
