NEW GENERATION

Maya Series Board
with Slider®
an INNOVATIVE ADJUSTABLE PEN TRAY

Bi-office's most popular line has just been updated. Our Maya Series boards now include the original Slider® Adjustable Pen Tray. Practical and versatile, Bi-office's new tray system slides on the frame so that the user can adjust it to their preferred position. With its round corners and innovative design, the Slider® Adjustable Pen Tray is user friendly and does not have any sharp edges.

New!

Available in several surface types, the New Generation Maya Series boards combine looks and functionality and will fit most decoration styles. Keeping up with our customers' demands and creating value to the final user, our team created a new frame that opens new possibilities. Stable and versatile, this board is an ideal tool for all working spaces.

Stable
The smart designed corners give this board extra stability

Adapting to the user needs
The sliding adjustable pen tray easily adapts to the user's needs.

Smart design
The new Maya frame combines looks and functionality in original ways, giving a sense of depth to the board. The concave horizontal bars allow the use of our innovative sliding pen tray.

MEETING & TRAINING

Tools for Teaching and Learning

Finest in quality and most excellent in technology, the Bi-office Meeting and Training range of communication products offers the best performance even under the hardest conditions. Our bright solutions and clever details make our boards the most versatile and durable in the market. Appealing and resourceful, our products are the best way to pass on new knowledge.

Bi-Bright® *eRed 3*

Interactive whiteboards are common features in classrooms, training spaces and in office environments.
They are an essential tool to communicate and stay connected.

Technology
Touch System
LED Technology
Low power consumption
High accuracy
Fast writing speed
Wi-Fi ready

Surface
Porcelain, enamel-on-steel
Highly scratch-resistant
Dry-wipe
Very easy to clean and maintain
Low glare
Electronics free

Warranty
Surface: 25 years
Electronics: 5 years

The Bi-Bright eRed 3 board is touch-sensitive and recognizes the presence of a pen, finger or extendable pointer on the board surface.
The ceramic steel surface is hard, resistant and durable, built for intensive daily use as a regular whiteboard.

Durable and resistant
Large sturdy aluminum frame and full length tray

Bi-Bright is a constituent part of the Bi-Silque group and its newest sister company.
With Bi-Bright, Bi-Silque is setting its sights on the future, backed by its tested and proved approach,honed by years of steady, sustained growth and accumulated knowledge in the field. Interactive visual communication is no longer a future promise, but rather a present need. The creation of Bi-Bright comes from the need to think ahead in a fast-paced and increasingly high-tech world.

The future has never looked brighter.

EARTH-IT
Eco Solutions for a Greener World

Environmental concerns have become paramount to mankind in this new century.
Bi-Silque is proud to use the latest technologies associated to ecological, recyclable and reusable materials assuring that our products meet or exceed local environmental regulations. Bi-Silque's continued commitment to the environment compels us to take the lead in the development and distribution of products that comply with the evolving ecological interests and requirements of today's workplace.

Presentations made naturally

Giving preference to recycled and recyclable materials in its manufacture, Bi-office Earth-It! products combine fine quality with a responsive approach on the environmental issues our planet is now facing. In our pursuit for excellence we match our office and communication solutions with the highest standards in sustainable development.

Because this is a message worth passing on, we offer this presentation product brand as a choice for our most demanding clients.

Aluminium
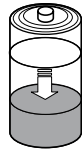

Bi-Silque's aluminium frames follow the highest environmental standards, being made from 100% post consumer and post industrial waste. Metals can be recycled indefinitely without loosing any of their properties

recycling used aluminium saves up to 95% of the energy

needed to make aluminium from its raw materials, making this an environmentaly profitable process.

Recycling 1 kg of aluminium saves 8kg of bauxite, 4kg of chemical products and 14 Kilowatts of electricity.

MDF

Bi-Silque's MDF (Medium-Density-Fibreboard) frames are

made from 39% post industrial waste

and are almost fully recyclable. Apart from being an ideal option for recycling wood or paper, MDF also offers consistency in strength and size and has no tendency to split.
The Environmental Impact of MDF has greatly improved over the years.

Paper

Offered in two solutions, made from recycled paper or from materials obtained in sustainable forests, our paper product lines reflect our environmental concerns. Fulfilling the most demanding EU ecological criteria, we guarantee our customers professional quality with almost zero environmental impact.

Ceramicsteel e³

Bi-Silque's environmental concerns made us search for ecological and user-friendly solutions for whiteboard surfaces. The e³ ceramicsteel surface combines high efficiency and durability with the strictest and most demanding environmental regulations. Regarding the characteristics of sustainable materials, products and systems, this product is eco-friendly from the earlier production stages until it reaches the end consumer.

The e³ ceramic steel surface has a very low concentration of heavy metals

and combines outstanding durability, superior visibility, exceptionally smooth writing/erasing and resistance to chemicals in one simple, environmentally concerned product.

Cork
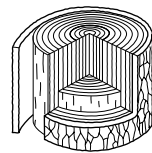

Portugal has the largest cork oak forest in the world and is by far the world's biggest manufacturer of cork products. To protect this treasure, Portugal was a pioneer in environmental legislation, the first agrarian laws dating from the early 13th century. The so-called Design Sustainability and Eco-Design have in products made of cork one of the most effective answers for environmental sustainability. The use of cork products is very significant from an ecological point of view. Being a renewable product, whenever it is used in consumer products the retention of carbon dioxide (CO2) increases.

The cork bark is periodically (every 9 years on average) extracted from a cork oak tree which enables the tree to produce between 250% to 400% more cork than it would if the cork was not extracted, thus increasing CO2 retention.

WHITEBOARDS

Answering to the contemporary need of finding sustainable options for the continued development of our consumer needs, Bi-office products are offered in ecologically concerned formats. Our Earth-It! presentation boards provide our customers with the best performance and professional quality, from recycled and recyclable materials.

CONFERENCE
SHOW & TELL
Conference Tools

From Auditoriums to Small Conference Rooms, our solutions to successful
communication cover many up-to-date efficient media strategies. Lectures and
chalk-talk are enhanced by our smart design. It is easier to capture and maintain
the attention of an audience in balanced and elegant environments, matching the
style of our products. Bi-office conference commodities offer the finest support
for the best of contents.

Interchangeable and fully upgradeable, our unique easy sliding system on a triple rail enables users to easily move equipment around the room, regardless of its size. The possibility to change and add, hide or reveal puts forth a new idea in creating a clean and efficient concept of planning conference, meeting or training rooms; maximizing interaction with the audience and making the most out of the available space.

All the boards can pass in front of or behind any other board
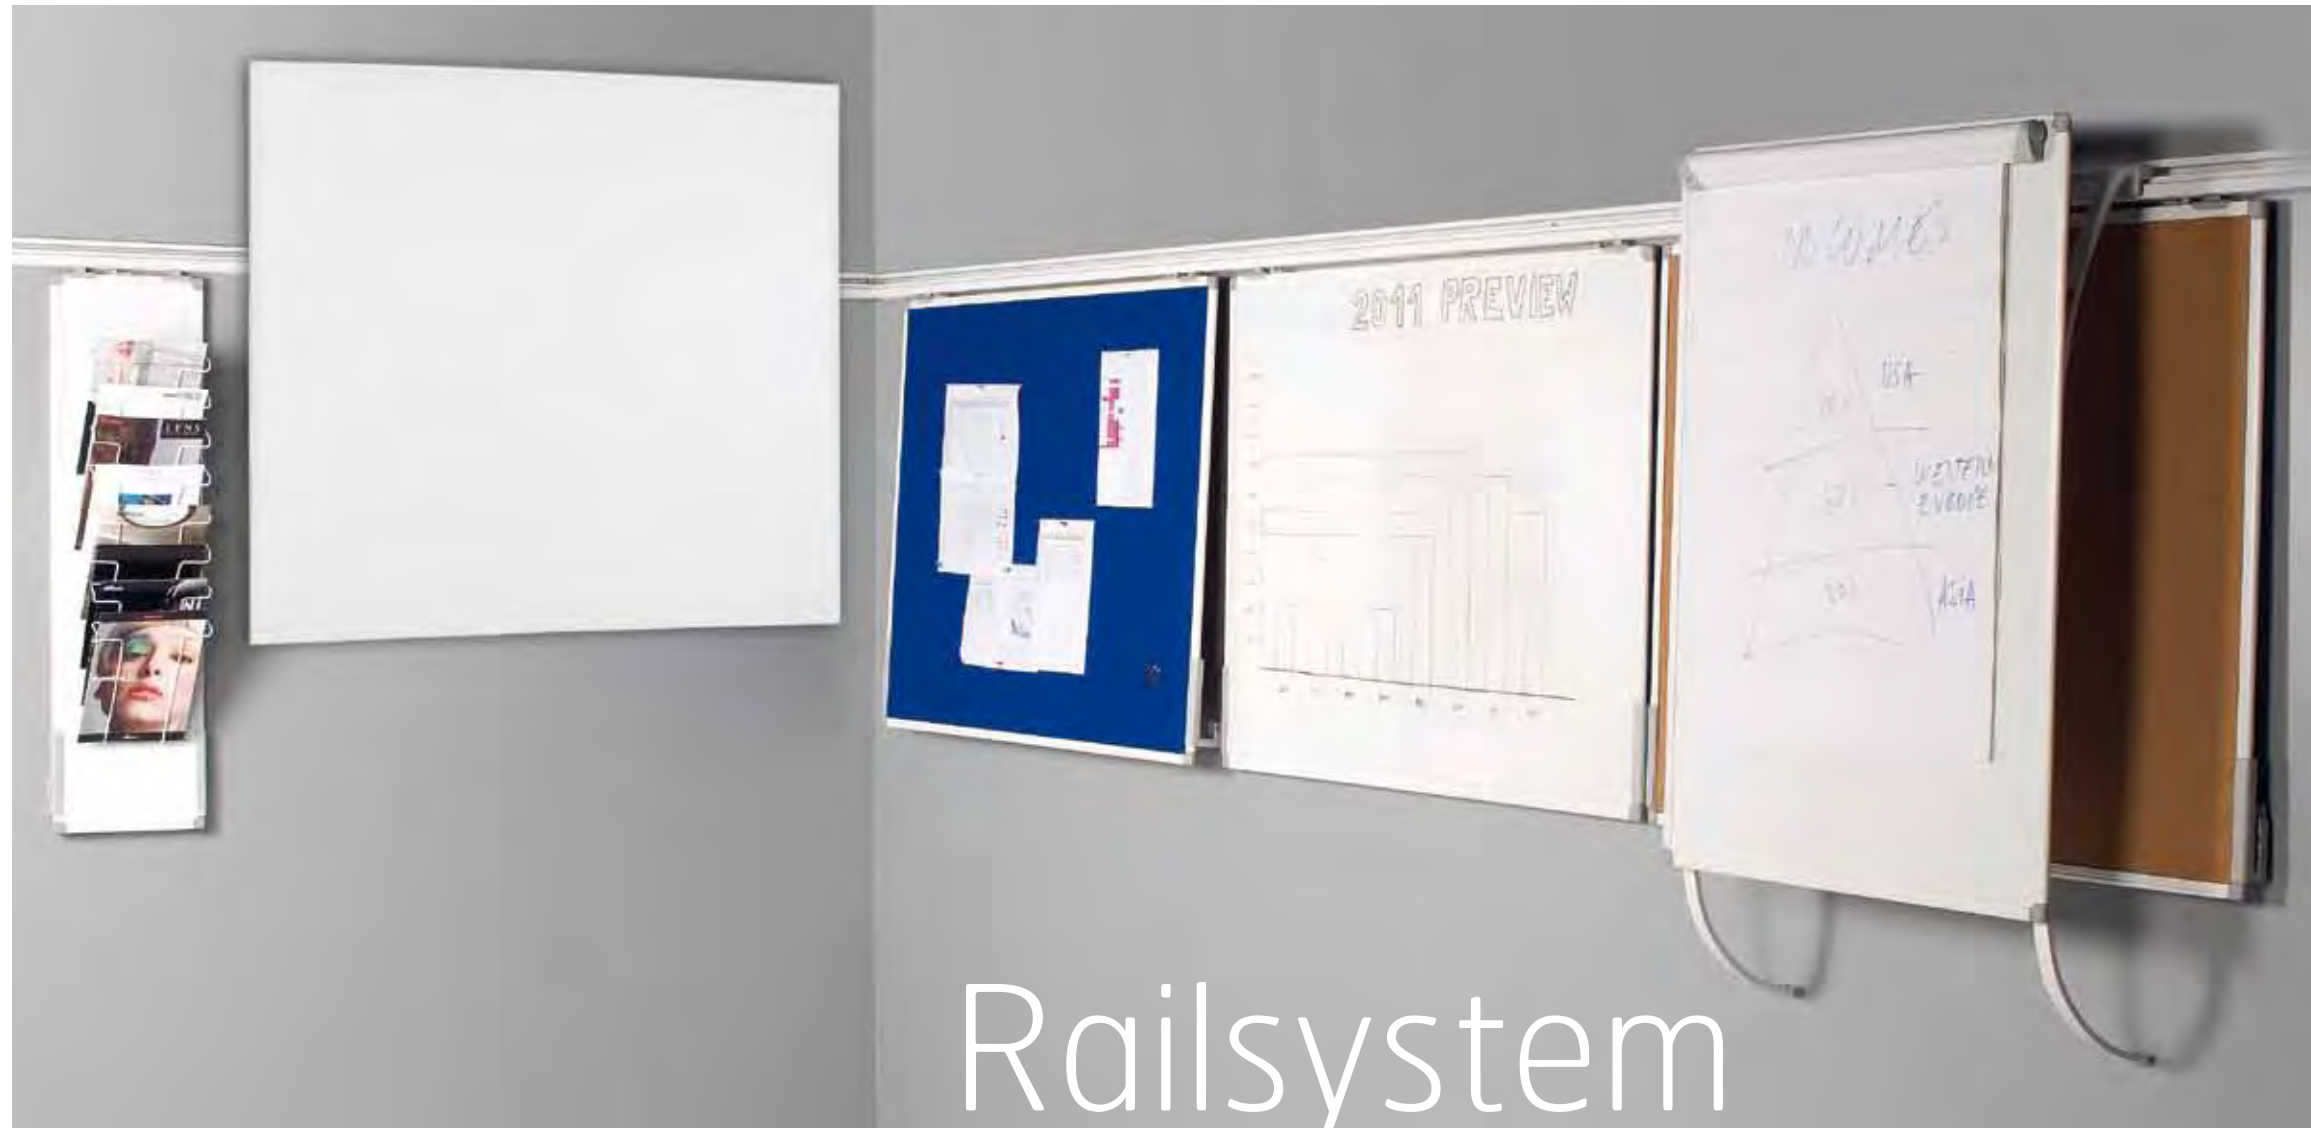

Railsystem

NOTICE BOARDS
Smooth and safe felt surface

Felt notice boards with fire retardant properties
Available in a variety of sizes and colours
gives you the option of displaying your memos, photos, artwork, etc. with pushpins or velcro

DRYERASE BOARDS
Multipurpose surface

Enamel surface Guaranteed to last a lifetime the P3 Ceramic Steel provides an ultra-smooth finish to the whiteboard
High-quality, resistant and uniform magnetic dryerase surface
Write and/or hold your messages with magnets

CORK BOARDS
Natural look

Cork is so resilient that when pierced the deformation is very restricted
Cork increases the board's resistance to humidity (cork being an excellent insulator)

PRESENTATION
SHARING IDEAS
Hardware for vivid presentations

Bi-office presentation Boards and Accessories provide high performance and durability. Our top of the line enamel surfaces come with a 25 year warranty. Extremely versatile, they offer maximum efficiency getting the job done.
Because communication isn't a message sent, but a message received, a good choice in presentation hardware is essential.
Bi-office range of products offers both quality and design, ensuring that the audience will always keep their eyes on the message.

How to choose a dryerase board?

Bi-office developed a full range of presentation boards to attend to the diversity of needs in today's demanding work market.

Bi-office has developed the Bi-office BEST boards for those who need a high performance board with the best surface for everyday intensive use. These boards offer the best Magnetic Dryerase surface performance and come ensured with a 25 year extended warranty.
The vitreous Enamel steel surface is heated up to 800ºC. Magnetic, scratch resistant, hardly any ghosting, ultra smooth, offering very high contrast; they are the best in the market.
You will find the enamel surface under our best board options.

The Bi-office BEST boards are designed for frequent use. We have developed a very fine magnetic surface complete with a 10 year extended warranty. These Boards have a very smooth writing surface with hardly any ghosting and a very good contrast. A wide assortment of alternatives is available in this product line.
Last but not least, for those looking for a normal performance board and a compromise between quality and price we developed the Bi-office GOOD boards. This product line comes with a special non magnetic dryerase surface and a 5 year extended warranty.
The surface has excellent visibility, it is smooth to write on and wipes off easily. Again, you will find that we have a large offer also in this line.

Important steps
to extend the life
of your Magnetic/Dryerase Board

1

When cleaning it for the first time, wipe your board with a clean cloth moistened with Bi-office cleanser-spray or use our Bi-office wet-tissue cleaners. Rinse with clean water and wipe dry with a cloth. This step is simple but very important.

2

Regular cleaning should be done with a felt eraser. Wait until the ink is completly dry on the board and wipe it in a slow, circular motion to loosen marker residue. **THIS STEP IS VERY IMPORTANT** If some residue still subsides draw over the lines with a dryerase marker. If the stained area is large, spray Bi-office cleanser spray on the stain and wipe it clean.

3

If your board is used daily, the cleaning should be performed at least twice per week. More thorough cleaning may be required if ink is left on the board for more than 2 days.

4

Use only dry erase markers. NEVER use ballpoint pens and sharp objects as this will cause permanent damage. NEVER use an abrasive cleaner or glass cleaner on your dryerase board. This will remove the coating and decrease the erasability of your board. Water is not an effective cleaner because most dry erase markers are water resistant.

5

Wash erasers with warm soap and water. Let the eraser dry off completely before fluffing up the felt pad. Replace eraser when the pad is worn out.

MasterVision

As our top-line in presentation boards, Master Vision combines contemporary design with the best materials available in the market. Specially designed for professional and executive use, they fit the most demanding environments. The top quality of our enamel surfaces and their sturdy and remarkably elegant framing make these boards outstanding tools. As with all successful businesses, the essence of our Master Vision line lies in its fine details.

an INNOVATIVE ADJUSTABLE PEN TRAY

Bi-office's most popular line has just been updated. Our Maya Series Boards now include the original Slider® Adjustable Pen Tray. Practical and versatile, Bi-office's new tray system slides on the frame so that the user can adjust it to their preferred position. With its round corners and innovative design, the Slider® Adjustable Pen Tray is user friendly and does not have any sharp edges.

New!

Best

How to choose a notice board?

Bi-office has developed a full range of display/notice boards as an answer to the diversity of needs in today's demanding working environments.

Felt Boards — Professional quality fire-retardant felt with a wide choice of smart colours. All our framing options are available.

Cork Boards — Bi-office uses the best natural fine grain Portuguese cork that, being self-healing, can last for a lifetime. We also have a Techcork line available, a special self-healing surface based on a fine blend between cork and rubber. Aluminium and lined wood frames are available.

Softouch Boards — If you are looking for a particular surface able to enhance how your office looks this is what you are looking for. A sophisticated surface designed for modern working spaces.

Combination Boards — The best of two worlds in one board, offering a wide choice of combinations between surfaces and frames.

Combonet Board — Great performance notice board that works with magnets and pushpins. Choose between any of our aluminium frames.

PUBLIC NOTICE
Contemporary Info-Boards

The Bi-office line of Info-Boards combines a direct approach to information display with the most up-to-date products and technology; adding performance, durability and a distinct contemporary design to commodities of already proven excellence. From executive to personal use, our solutions are extremely versatile and come in a wide range of surface and framing choices. Managing ideas, displaying important notices for individual or team work organization is made simple and straightforward by our durable and elegant boards.

Group or Personal Planning

Organization is a prime need in every business or enterprise. Successful ventures depend on precise planning where both individual and team work are coordinated in effective ways. Bi-office Planning Boards are excellent tools to always have schedules visible and in sight. Keeping important tasks on notice, organizing work-groups or just planning ahead is made practical and easy with our weekly, monthly or annual planners.

Maya new generation planners

The new generation Maya wall planners add new functionalities and extra versatility to Bi-office's line of time management hardware. Our team created a new frame that opens new possibilities. The adjustable pen tray makes it easier to store all the board's accessories and will adapt the user's needs. Ideal to all business oriented spaces, the new generation planners combine looks and functionality.

Magnetic Planning Kit
Make the most out of any Planning Board with these intuitive and simple tools. **For more information please go to page 155.**

Magnetic Stripes
Easily identify or give atributes to distinct areas of any planning board.
For more information please go to page 155.

Bi-office Annual Planner
Versatile and practical, our annual planner is ideal when used to coordinate long term project development or working teams throughout the year.
With 16 rows available, you can organize monthly tasks or deadlines for that same number of workers or projects.
When used with our Magnetic Planning Kit you can create specific areas and attributes for each slot and define priorities using colour codes.

Super Strong Magnets
Practical and easy to use, post and move objects around the board without damaging it.
For more information please go to page 154.

Black and White Annual Planner
This 31-line board is a versatile Professional tool; that can be used either as an annual calendar or as a planner; ideal for use in long term projects or to coordinate the work of large teams. A perfect tool for professional environments, Bi-office planners can be enhanced by using coloured magnetic tools like our arrows and dots, which can be used to define different statuses or the direction of production lines.
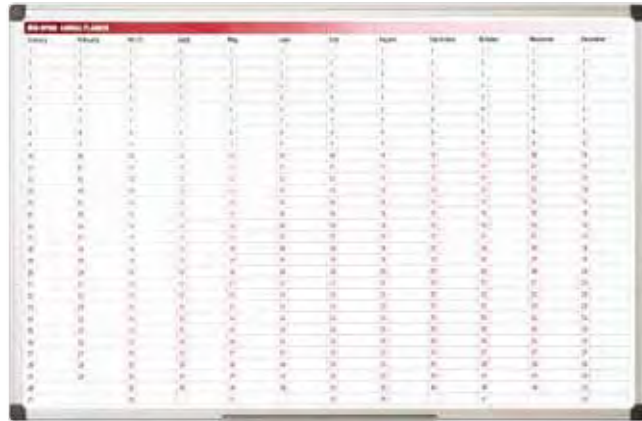

Bi-office Annual Planner (days)
A convenient wall calendar, this planner board includes in its surface all the 366 days a year can have. Designed to work better as an individual calendar, it is ideal to have all your tasks at the distance of a glance and inform co-workers of time availability or even current location. Simple to use, it can also be combined with our magnetic tapes to plan working days and scheduled events.
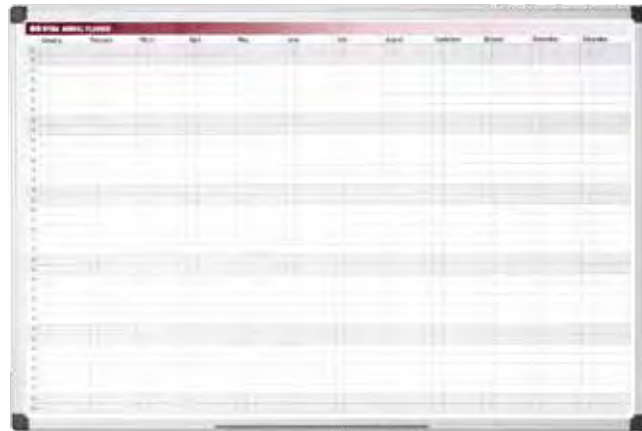

Bi-office Annual Planner (weeks)
A professional wall calendar, this Bi-office board presents the weeks in a year to help organise and plan work ahead. Adding the days of every month, this stable and durable board is suited for coordinating team work and project assignments between co-workers. Easy and simple to use, it is perfect for planning a working year in offices or small businesses operating on a weekly basis, making it easy to assign tasks and map holidays.
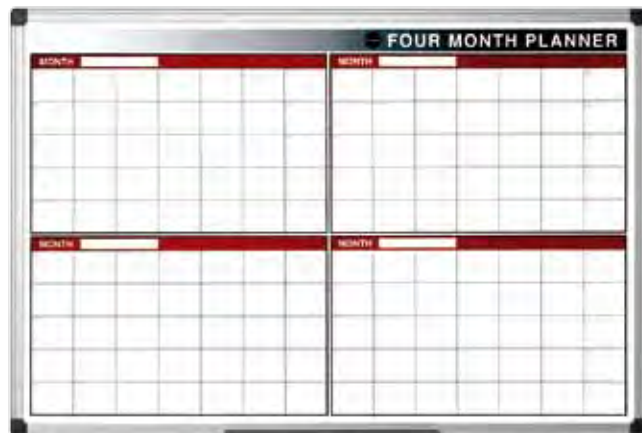

Bi-office Annual Planner (Four Month)
This planner is suited for short-term project organisation. With lots of space to introduce info, you can plan ahead and in detail every day of the month. Its smooth surface makes writing comfortable and it's easy to clean; best used with the Bi-office Magnetic Planning Kit.

Bi-office Yearly Planner (Twelve Months)
Specially designed to be used with our magnetic tools, this wall calendar can be a decisive help in organising individual or group tasks. Either planning work, holidays or writing down deadlines, our Yearly Planner keeps all info always at the distance of a glance. This powerful visual communication tool can be used both at home or in the office, as a memory aid or as a work coordinator.

Bi-office Week Planner
Bi-office's Week Planner is a versatile tool that allows you to organise up to 2 months of work in a simple, easy and efficient way, or just organise a week, day by day and hour by hour. Use it to create both individual and team schedules in dynamic and ever changing office environments; its magnetic surface is easy to erase and guaranteed to last for years of hard work and heavy planning.

Bi-office Monthly Planner
A perfect tool for every home or office, this Monthly Planner is a perfect aide to all who run on tight schedules and short notices, making it easy to organise and manage time over a six week (42 days) period, adding extra space to include the tasks that keep coming up for the next month. Used with Bi-office Magnetic Tools, it is easy to make appealing and eye catching plans, keeping everyone informed about what needs to be done.

Light but resistant materials make this planner perfect for personal use. The lightweight and slim plastic frame guarantees a stable and functional board. Discrete and elegant, it fits all decoration styles and environments, giving practicality to every product in this line.

Simple and Sophisticated
KAMASHI
Several frames available
Modern design
Felt or magnetic surfaces
Easy to write and erase

With a design that takes Inspiration in traditional Japanese tea kettles, these boards are built in large and sturdy elegant frames. Available in three colours that evoke the transformation of iron through fire; the frame is also lightly textured. Fitting in most contemporary decoration styles, Kamashi boards grant any space a touch of simplicity and sophistication.

Modern Look
EASY BLACK

NEW GENERATION

Maya Series Board
with Slider®
an INNOVATIVE ADJUSTABLE PEN TRAY

Bi-office's most popular line has just been updated. Our Maya Series boards now include the original Slider® Adjustable Pen Tray. Practical and versatile, Bi-Office's new tray system slides on the frame so that the user can adjust it to their preferred position. With its round corners and innovative design, the Slider® Adjustable Pen Tray is user friendly and does not have any sharp edges.

Bi-Office
