

# SAFETY DATA SHEET

## Carex Professional Handwash - Original

This Safety Data Sheet contains information concerning the potential risks to those involved in handling, transporting and working with the material, as well as describing potential risks to the consumer and the environment. This information should be made available to those who may come into contact with the material or are responsible for the use of the material. This Safety Data Sheet is prepared in accordance with formatting described in the REACH Regulation (EC) No 1907/2006, and described in CLP Regulation (EC) No 1272/2008.

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier**  
Carex Professional Handwash - Original
- 1.2 Relevant identified uses of the substance or mixture and uses advised against**  
Hand washing
- 1.3 Details of the supplier of the safety data sheet**  
PZ Cussons (UK) Ltd,  
Manchester Business Park,  
3500 Aviator Way,  
Manchester, M22 5TG  
Tel: +44 (0)161 435 1000 (Office Hours), +44 (0) 800 581001 (24 hour voicemail)  
Email: pzweb.general@pzcussons.com
- 1.4 Emergency telephone number**  
Tel: +44 (0)161 435 1000 (Office Hours), +44 (0) 800 581001 (24 hour voicemail)

### SECTION 2: Hazards Identification

- 2.1 Classification of the substance or mixture**  
This product is not considered to be hazardous based upon consideration of the components.  
**Classification in accordance with the Dangerous Preparations Directive 1999/45/EC**  
Not classified as hazardous  
**Classification in accordance with the CLP Regulation (EC) No 1272/2008**  
Not classified as hazardous
- 2.2 Label elements**  
**Labelling in accordance with the Dangerous Preparations Directive 1999/45/EC**  
No label required.  
**Labelling in accordance with the CLP Regulation (EC) No 1272/2008**  
No label required.
- 2.3 Other hazards**  
There are no known long-term health effects resulting from exposure.  
All components are biodegradable and not expected to present a hazard to the environment.

**SECTION 3: Composition****3.1 Substances**

Not applicable, product is a mixture.

**3.2 Mixtures**

An aqueous solution of anionic and amphoteric surfactants with preservative and fragrance. This product contains the following hazardous components:

| Name                   | CAS No     | Concentration | Classification                        |
|------------------------|------------|---------------|---------------------------------------|
| Sodium Laureth Sulfate | 9004-82-4  | 5-15%         | Acute Tox. 4 H302, Eye Irrit. 2 H319  |
|                        |            |               | Xn; R22, Xi; R36                      |
| Cocamidopropyl Betaine | 61789-40-0 | 1-5%          | Skin Irrit. 2 H315, Eye Irrit. 2 H319 |
|                        |            |               | Xi; R36/38                            |

See section 16 for full description of R phrases and H statements.

**SECTION 4: First Aid Measures****4.1 Description of first aid measures**

**EYE CONTACT:** Wash thoroughly with water for several minutes whilst holding the eyelids open. Seek medical attention.

**INHALATION:** Remove from exposure. If breathing becomes difficult call a doctor.

**SKIN CONTACT:** Wash off with plenty of water. Seek medical attention if irritation or discomfort occurs.

**INGESTION:** If swallowed, rinse mouth with water.

**4.2 Most important symptoms and effects, both acute and delayed**

**EYE CONTACT:** Redness, tears, stinging

**INHALATION:** Runny nose, cough, sore throat

**SKIN CONTACT:** Slight redness, mild irritation, stinging. Prolonged contact or repeated exposure may cause dryness and cracking of skin.

**INGESTION:** Sore mouth and throat, nausea, vomiting.

**4.3 Indication of any immediate medical attention and special treatments needed**

Symptomatic treatment as required.

**SECTION 5: Firefighting Measures****5.1 Extinguishing media**

Not flammable. Not known to react with any extinguishing material. Use extinguisher appropriate to surrounding conditions.

**5.2 Special hazards arising from the substance or mixture**

If involved in a fire, may release fumes of sulphur oxides.

**5.3 Advice for fire fighters**

Fire fighters should wear protective clothing and breathing apparatus as appropriate.

**SECTION 6: Accidental Release Measures****6.1 Personal precautions, protective equipment and emergency procedures**

Wear protective clothing including overall, gloves and eye protection to prevent skin and eye contact. Open doors and windows to ensure good ventilation. Spillage area may be very slippery.

**6.2 Environmental precautions**

Prevent entry into sewers and watercourses.

### 6.3 Methods and materials for containment and clearing up

Small spills (<1 litre) may be absorbed with paper towels.

Large spills (> 1 litre) should be covered with a suitable absorbent, e.g. sand, earth or spill granules and collected for disposal. Label containers for disposal.

Wash spill area thoroughly to remove residues.

### 6.4 References to other sections

See section 8 and 13 for further advice.

## SECTION 7: Handling and Storage

### 7.1 Precautions for safe handling

Avoid contact with eyes and prolonged contact with skin.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in its original labelled container in a cool, well ventilated area. Avoid low temperatures. Not to be stored next to foodstuffs and water supplies. Keep out of reach of children and animals.

### 7.3 Specific end uses(s)

No special precautions.

## SECTION 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

No specific control limits available.

### 8.2 Exposure controls

Normal chemical handling procedures should be observed. Do not eat, drink or smoke when handling this product. Wash thoroughly after handling, Ensure adequate ventilation.

#### Respiratory protection

Not usually required. Use in well ventilated areas and avoid formation of spray or aerosols.

#### Hand Protection

If prolonged contact with undiluted product is likely wear suitable gloves recommended for use with surfactants. Nitrile, neoprene and rubber may be suitable but glove manufacturer recommendations should always be checked. Change gloves in accordance with manufacturer recommendations. If gloves are damaged during use, remove immediately and wash hands before replacing with new gloves.

#### Eye protection

Safety glasses or goggles recommended if handling significant quantities of undiluted product.

#### Skin protection

Coveralls recommended. These should be changed after use or if contaminated. Wash before re-use.

## SECTION 9: Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

|   |                    |
|---|--------------------|
| <b>Appearance:</b>                      | Clear, blue liquid |
| <b>Odour:</b>                           | Pleasant odour     |
| <b>Odour threshold:</b>                 | No data            |
| <b>pH:</b>                              | 3.7-3.9            |
| <b>Melting point:</b>                   | No data            |
| <b>Boiling point:</b>                   | Similar to water   |
| <b>Flashpoint:</b>                      | Not flammable      |
| <b>Evaporation rate:</b>                | Similar to water   |
| <b>Flammability (solids, gas):</b>      | Not applicable     |
| <b>Upper/lower flammability limits:</b> | Not flammable      |
| <b>Vapour pressure:</b>                 | Similar to water   |

|  |                                |
|--|--------------------------------|
| <b>Vapour density</b>                  | No data                        |
| <b>Relative density</b>                | 1.02-1.03                      |
| <b>Solubility in water:</b>            | Completely soluble             |
| <b>Solubility in other solvents:</b>   | No data                        |
| <b>Partition coefficient (log Kow)</b> | No data                        |
| <b>Autoignition temperature</b>        | No data                        |
| <b>Decomposition temperature</b>       | No data                        |
| <b>Viscosity</b>                       | 8000-12000 cps at 20°C         |
| <b>Explosive properties</b>            | Not considered to be explosive |
| <b>Oxidising properties</b>            | Not considered to be oxidising |

**9.2 Other information**

None

**SECTION 10: Stability and Reactivity****10.1 Reactivity**

Not considered to be reactive.

**10.2 Chemical stability**

Stable under normal conditions.

**10.3 Possibility of hazardous reactions**

None expected.

**10.4 Conditions to avoid**

Avoid exposure to high and freezing temperatures.

**10.5 Incompatible materials**

Avoid contact with strong oxidisers.

**10.6 Hazardous decomposition products**

May release fumes of sulfur oxides if heated to decomposition.

**SECTION 11: Toxicological Information****11.1 Information on toxicological effects**

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

- |   |   |
|---|---|
| <b>(a) acute toxicity</b>                 | This product is not considered to be acutely toxic.   |
| <b>(b) skin corrosion/irritation</b>      | May be mildly irritating to the skin, based on consideration of its components, especially on prolonged or repeated exposure. |
| <b>(c) serious eye damage/irritation</b>  | May be mildly irritating to the eye, based on consideration of its components.  |
| <b>(d) respiratory/skin sensitisation</b> | Contains no respiratory or skin sensitisers above thresholds of concern.  |
| <b>(e) germ cell mutagenicity</b>         | None of the components have been identified as germ cell mutagens.  |
| <b>(f) carcinogenicity</b>                | None of the components have been identified as carcinogens.   |
| <b>(g) reproductive toxicity</b>          | None of the components have been identified as reproductive toxins.   |
| <b>(h) STOT-single exposure</b>           | None of the components have been identified as presenting a systemic target organ hazard.                                     |
| <b>(i) STOT-repeated exposure</b>         | None of the components have been identified as presenting a systemic target organ hazard.                                     |
| <b>(j) aspiration hazard</b>              | Not considered to present an aspiration hazard.   |

**SECTION 12: Ecological Information**

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

**12.1 Toxicity**

Not expected to be toxic in the environment.

**12.2 Persistence and degradability**

The organic components are expected to biodegrade in the environment.

**12.3 Bioaccumulative potential**

None of the components are considered to be bioaccumulative.

**12.4 Mobility in soil**

All components are water soluble and are expected to partition in the aqueous compartment.

**12.5 Results of PBT and vPvB assessment**

None of the components are known to be PBT or vPvB.

**12.6 Other adverse effects**

None known.

**SECTION 13: Disposal Considerations****13.1 Waste treatment methods**

Recover and recycle unused product if possible. If recovery and recycling are not possible incinerate or dispose of in accordance with local regulations. Do not mix with other waste materials.

**SECTION 14: Transport Information**

This product is not classified as dangerous for transport.

|      |  |                         |  |
|------|--|-------------------------|--|
| 14.1 | UN Number  | Not applicable          |  |
| 14.2 | UN Proper shipping name  | Not applicable          |  |
| 14.3 | Transport hazard class(es)   | Not applicable          |  |
| 14.4 | Packing group  | Not applicable          |  |
| 14.5 | Environmental hazards  | Not applicable          |  |
| 14.6 | Special precautions for user   | None                    |  |
| 14.7 | Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code | Not transported in bulk |  |

**SECTION 15: Regulatory Information****15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

All components are listed as existing substances in Europe.

**15.2 Chemical Safety Assessment**

A Chemical Safety Assessment has not been carried out for this product.

**SECTION 16: Other Information****Revision information:**

This is a new SDS.

**List of Abbreviations used in this SDS:**

CAS Chemical Abstracts Service  
CLP Classification, Labelling and Packaging Regulation (EC) no 1272/2008

DSD Dangerous Substances Directive 67/548/EEC  
DPD Dangerous Preparations Directive 1999/45/EC  
EC European Community/Commission  
PBT Persistent, Bioaccumulative and Toxic  
REACH Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) no 1907/2006  
vPvB very Persistent, very Bioaccumulative

**References:**

**Method used for classification of mixtures:**

Expert judgement

**R Phrases and H Statements used in Section 3**

R22 Harmful if swallowed.

R36 Irritating to eyes.

R36/38 Irritating to eyes and skin

H302 Harmful if swallowed.

H315 Causes skin irritation

H319 Causes serious eye irritation.

**Training requirements for workers**

No special training requirements.
