

Matrix® Red N

Matrix® Red N is a seamless knitted liner with a foamed nitrile palm coating that provides excellent grip and abrasion resistance. Designed to be close fitting, the seamless liner with elasticated knit wrist allows for maximum dexterity; combine this with the foamed nitrile palm coating and you have a glove which is ideal for those tactile tasks that require the highest level of grip in wet or light oil conditions. This is achieved by the foamed nitrile channelling liquids away from the glove surface. With its excellent abrasion resistance and liquid repelling properties, this glove is the perfect choice for a number of environments where liquid or light oil is present.

Typically used for:

- Component Handling
- General Assembly
- Electronics
- Light Engineering Work
- Automotive Maintenance & Repair
- Automotive Engineering

Case Quantity:

12 pairs per polybag
144 pairs per case
