

235 COUNTERFEIT DETECTOR

IDENTIFY BANKNOTES' IR SECURITY FEATURES

Modern banknotes contain special infrared (IR) inks that are invisible to the naked eye, but glow or turn black under infrared light at the right frequency. The Safescan 235 instantly illuminates these integrated IR security features, helping you visually identify potentially counterfeit notes. Thanks to its high-quality infrared camera and roomy 4" LCD screen, the Safescan 235 lets you inspect multiple banknotes and cards at one time: a fast, efficient way to identify potentially counterfeit notes.

- Infrared counterfeit detector
- Checks multiple banknotes at once
- For all currencies
- Large and clear 4" LCD screen

Verifies the infrared properties of banknotes

Checks authenticity of driver's licenses and ID documents

High quality infrared camera, 4" LCD screen

TECHNICAL SPECIFICATIONS

- Default currencies	All
- Detection method	Manual verification
	IR
- Power	AC 220V-240V / 50Hz - 12W, 50mA
- Dimensions product (lxwxh)	10.5 x 12.8 x 24.3 cm
- Weight product	460 gr
- Dimensions retailbox (lxwxh)	19.0 x 30.5 x 18.5 cm
- Certifications / compliancies	CE, RoHS, REACH

PACKAGE CONTENTS

- Safescan 235
- Manual (multilingual)
- Power adapter

WARRANTY

- 3 years
