

85

COUNTERFEIT DETECTOR

POCKET SIZE DETECTION FOR GBP AND EUR

Lightweight and compact, the battery-powered Safescan 85 is the perfect counterfeit detector wherever you need fast, portable verification, such as at markets and events or in taxis and delivery vans. Put EUR or GBP banknotes through a quick yet comprehensive check on three distinct security features: magnetic ink, metallic thread and infrared absorption.

- 3-point counterfeit detection: magnetic ink, metallic thread and infrared
- Suitable for detection of current and new banknotes series
- Automatic banknote verification
- Currency: British Pounds and Euro
- Easy to use
- Test speed: <1 second
- Automatic shut down after 5 minutes

Verifies British pound banknotes

Powered by 3 AAA batteries

Ready for the new polymer banknotes
