- Up to 20 sheet automatic document feeder
- Up to 250 sheet paper capacity
- 200 Speed dial locations
- Up to 400 Pages transmit/receive memory

# FAX-2820

---

This high quality, professional laser fax machine brings style and efficiency to your office. Its compact design and front loading paper cassette means that it's not only easy to use but also saves valuable space.

The FAX-2820 benefits from 20 one-touch dial locations for your most regularly used numbers. It also has a 250 sheet paper capacity. However, should paper ever run out, the FAX-2820 will store up to 400 pages of faxes received or transmitted into memory.

Not only is this a fully featured laser fax machine but it also offers convenient monochrome copying. Enlarge or reduce your original documents from 50% to 200% in 1% increments, and stack or sort your copies as desired.

Brother continues to save you money and help the environment. As with all laser machines from Brother, the FAX-2820 operates using a separate toner and drum, which means you only replace the toner or drum when necessary.

# FAX-2820 Technical Specifications
