- Special firefighting procedures:** Use appropriate respirator for carbon monoxide and carbon dioxide. Wear positive pressure self-contained breathing apparatus (SCBA) during the attack phase of firefighting operations and during cleanup in enclosed or poorly ventilated areas immediately after a fire. Personnel not having suitable respiratory protection must leave the area to prevent significant exposure to toxic combustion gases from any source.
- Unusual fire and explosion hazards:** Thermal decomposition of organic components may result in occurrence of oxides of carbon. Toxic gasses may be formed upon combustion and represents a hazard to firefighters. Combustion products: See Section: 10.

## 6. ACCIDENTAL RELEASE MEASURES

- Personal Protection:** In case of ink vapor formation, use respirator.
- Environmental Precautions:** Prevent substance entering sewers. Washings must be prevented from entering surface water drains.
- Methods for Cleaning Up:** Wipe up with absorbent towel. Wash with water to remove remaining traces of ink. DISPOSAL CONSIDERATIONS - See Section: 13.
