

Your BT Diverse 7150 Plus is now ready for use.

Press **Call** to Enter Date and press **OK**. Enter the date, e.g. 09 04 2011 (displayed as 09/04/2011) for 9 April 2011. Press **OK**.
 Press **Call** to Enter Time and press **OK**. Enter the time using the keypad in 24 hour mode only (e.g. 17:30 for 5.30pm) and press **OK**.
 Press **Call** to Date Format and press **OK**. Scroll **Redial** or **Call** to choose DD/MM/YYYY or MM/DD/YYYY and press **OK**.
 Press **Redial** or **Call** to choose how you want the clock displayed, either 24 Hour or 12 Hour and press **OK**.
 Date & Time is highlighted, press **OK**. Time Format is highlighted, press **OK**.
 Press the right soft key **Menu** and scroll **Redial** to Settings, press the right soft key **OK**.
 manually follow the procedure below:
 Providing you have subscribed to your network's Caller Display service the date and time is set automatically when you receive your first call. To set the date and time

Set time and date

Important: Charge the handset batteries for 24 hours or your phone may not work.

- 1 Remove the protective film from the handset screen and activate the batteries by pulling the plastic tab away from the back of the handset.
- 2 Place the handset on the base to charge.
- 3 After 24 hours, plug the telephone line cord into the telephone wall socket.

2 Charge

General information

For information on safety instructions, cleaning, technical information or connecting to a switchboard, please refer to the 'General Information' section in the full user guide at www.bt.com/producthelp

Guarantee

Your BT Diverse 7150 Plus is guaranteed for a period of 12 months from the date of purchase. Subject to the terms listed below, the guarantee will provide for the repair of, or at BT's or its agent's discretion the option to replace the BT Diverse 7150 Plus, or any component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished or repaired product.

- The conditions of this guarantee are:
- The guarantee shall only apply to defects that occur within the 12 month guarantee period.
 - Proof of purchase is required.
 - The equipment is returned to BT or its agent as instructed.

This guarantee does not cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents.

This guarantee does not affect your statutory rights. For further information within and outside the 12 month guarantee, please refer to the full user guide at www.bt.com/producthelp

Product disposal instructions

The symbol shown here and on the product means that the product is classed as Electrical or Electronic Equipment and should not be disposed with other household or commercial waste at the end of its working life.

The Waste of Electrical and Electronic Equipment (WEEE) Directive (2002/96/EC) has been put in place to recycle products using best available recovery and recycling techniques to minimise the impact on the environment, treat any hazardous substances and avoid the increasing landfill.

Product disposal instructions for residential users
 When you have no further use for it, please remove any batteries and dispose of them and the product as per your local authority's recycling processes. For more information please contact your local authority or the retailer where the product was purchased.

Product disposal instructions for business users
 Business users should contact their suppliers and check the terms and conditions of the purchase contract and ensure that this product is not mixed with other commercial waste for disposal.

Warning
 This equipment is not designed for making emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

R&TTE Directive & Declaration of Conformity

This product is intended for use within the UK for connection to the public telephone network and compatible switchboards.

This equipment complies with the essential requirements for the Radio Equipment and Telecommunications Terminal Equipment Directive (1999/5/EC).

For a copy of the Declaration of Conformity please refer to www.bt.com/producthelp

ⓘ If you ever need to remove the batteries, simply slide open the battery compartment cover and using the finger holes grip the batteries and pull them out.

1 Plug in

- 1 The telephone line cord is pre-installed but **don't** plug the other end into the wall socket yet.
- 2 Plug in the power adaptor with the blue end (item code 048611).
- 3 Plug the other end of the power adaptor into the wall socket and switch on.

Skip Skip forward to next message.

SIM card tray Insert a SIM card to copy entries to or from the phonebook.

Vol. + Adjust speaker volume during play back.
Vol. - Adjust speaker volume during play back.

Play Play messages.

3 Go!

Making calls

Press **Call** then dial the phone number. Press **Call** to end the call.

Answering calls

If you have subscribed to Caller Display, the caller's details will be displayed before you answer (see the full user guide online at www.bt.com/producthelp for details).

Lift the handset from the base to answer incoming calls.

If the handset is **not** on the base, press **Call**.

Handsfree

Press **Call** during a call to switch the call to loudspeaker.

Secrecy

Press the left soft key **Secrecy** during a call to activate secrecy mode.

Press the left soft key **Secrecy** again to return to your caller.

Redial

Press **Redial**, scroll **Redial** or **Calls** to choose the number you want. Press **Call** to redial the number.

Phonebook

Storing new directory entries manually (up to 100)

Press **Names**. **New Entry** is highlighted, press **OK**.

Enter the name then press **OK**. You may need to press the same button a few times until the letter you want is displayed. For example, press **2** once for **A**, or twice for **B**.

Number is displayed. Enter the number and press **OK**.

GROUP is displayed and the group ringtone melody is played (you cannot change the ringtone at this stage). To add the entry to a call group, scroll **Redial** or **Calls** to select a group and press **OK**. Display shows **Saved** (if you don't want to use this feature simply select **No Group** for all entries).

For further information on call groups or to select call group ringtones, please refer to the full user guide online at www.bt.com/producthelp

Dialling a directory entry

Press **Names**, scroll **Redial** or **Calls** to the entry you want. Press **Call** to dial the number.

SIM card reader/writer

Copy phonebook entries to or from a SIM card

Please note the following points otherwise copying will not work: If your SIM card is PIN protected you must remove the PIN before taking the SIM out of your mobile. Entries must be stored on the SIM card itself and not just in your mobile phonebook.

Insert the SIM card into the SIM card tray on the side of the base. The SIM should have the gold chip facing upwards.

Press **Names**, **New Entry** is displayed. If no phonebook entries are present, scroll **Calls** to **SIM COPY** and press **OK**. If phonebook entries exist, scroll **Calls** to any entry and press **Options**. Scroll **Calls** to **SIM COPY** and press **OK**.

Press **Redial** or **Calls** to select either **SIM to Phone** or **Phone to SIM** and press **OK**.

Select a phonebook entry using **Redial** or **Calls** and press **OK**.

Press **Redial** or **Calls** to highlight **COPY entry** or **COPY all** and press **OK**. If you choose **COPY entry**, each individual entry will need to be copied in this way. When each entry or all entries are transferred successfully, the display will show **Copied**.

Caller Display and the Calls list

You must subscribe to a Caller Display service for this feature to work. Your network provider may charge you for this service.

View and dial from the Calls list

Press **Calls**, the most recent entry in the list is displayed. Press **Redial** or **Calls** to scroll through the list.

Press **Options**. **Details** is highlighted, press **OK**. The call details will be displayed.

Press **Call** to dial a displayed entry.

Answering machine

Your answering machine is on and ready to record messages. The controls are shown in the base diagram to the bottom left and the features can also be accessed via the handset Answer Machine menu.

Recording your own outgoing message

Press **Menu**, scroll **Calls** to **Answer Machine**, press **OK**.

Press **Calls** to scroll to **Outgoing Mes.** and press **OK**. **Record Message** is displayed, press **OK**. Press **Calls** to **Ans & Record** or **Answer Only** and press **OK**.

After the long beep, speak your message into the handset. When finished, press **Save**. Your message will be played back to you. If you want to delete it, press **Delete** during playback, or press **OK** to save it.

Ring delay (set number of rings before answer machine picks up the call)

For compatibility with the BT 1571 service do not set the ring delay to more than 6 rings.

Press **Menu**. Scroll **Calls** to **Answer Machine**. Press **OK**.

Scroll **Calls** to **Ans. Settings** and press **OK**.

Scroll **Calls** to **Answer Delay**. Press **OK**. Press **Redial** or **Calls** to select the number of rings (2, 4, 6, 8 or **Timer Saver**) and press **OK** to save.

For detailed instructions on all the answering machine features see the full user guide online at www.bt.com/producthelp

Text messaging

Before sending and receiving text messages you need to register to the text messaging service and subscribe to Caller Display. You will be automatically registered to the text message service when you send your first text. See the full user guide online at www.bt.com/producthelp for details.

Compatible with the BT Diverse Repeater

Please see the full user guide online at www.bt.com/producthelp

Help

Most problems can be fixed with a few simple checks.

Problem	Solution
No dial tone	Only use the cables and batteries supplied. Make sure both the power adaptor cable and telephone line cord are plugged into the correct sockets on the base. Make sure the power is switched on at the power wall socket and that the telephone line cord is plugged in correctly at the telephone wall socket.
Poor speech quality	Make sure the product is not located too close to other electrical appliances. This can also help improve the handset range from the base.
Battery icon not full/handset dead	Make sure you charge the batteries for 24 hours before use to ensure maximum battery performance.
Using broadband on the same phone line?	Make sure you plug the phone into the wall socket via an ADSL microfilter (not supplied), otherwise you may have problems with this product and your broadband service.
