

DT303 Desk Calculator

The Aurora DT303 is built for durability and reliability and is a great calculator for heavy duty applications, the large 12 digit LCD display features large digits and is angled to enable easy viewing. The calculator is designed for ease of use with large keys, large numerals and the extra large addition key which all support fast data entry. Special features include the Grand Total feature that keeps a cumulative total of multiple calculations and the Mark Up feature which is great for calculating gross profit margins. Overall a reliable heavy duty product with a durable keyboard which represents excellent value for money.

- Large clear 12 digit display
- Durable heavy duty key pad
- Large well spaced keys
- Robust hard plastic keys
- Mark Up key – for Gross Profit

Technical Specifications

General Features	
Display Type	Angled LCD

Weight (Kg)	0.234	2.5	21.5
Barcode	6925781403601	6925781403861	6925781403878

Did you know?

The handy 'MU' or Mark Up key allows you to add a percentage of gross margin to a cost price in order to calculate the correct sale price. The gross margin is the percentage of the sale price you wish to make as profit and NOT the percentage of the cost price. e.g.

You have a cost price of £75, and you wish to make a 40% gross profit margin, what should your sale price be? The answer is £125.
(This is your cost price of £75 + 40% of £125)

To calculate this on the DT303 you simply press

7 5 ÷ 4 0 MU the display will show 125.
