

## Tork Reflex™ Wiping Paper Plus (Blue)

Article	473263
Roll Length	150.2 m
System	M4 - Reflex Centrefeed Roll System
Roll Width	19.4 cm
Roll Diameter	19 cm
Number of Sheets	429
Sheet Length	35 cm
Core Inner Diameter	5.9 cm
Ply	2
Colour	Blue

A multipurpose paper that is ideal for mopping up liquids and hand wiping.

[www.tork.co.uk](http://www.tork.co.uk)

- Multipurpose - handles most wiping tasks
- Ideal for mopping
- Suitable for hand wiping
- Food contact approved

Recycled fibres

Chemicals

Material

Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view.

The used functional chemicals are:

Wetstrength agent

Dry strength agent

Dye = if coloured

Fixing agents

Glue = if used

The process chemicals are:

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Broke treatment chemicals

Drainage aid

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Environmental label = EU Ecolabel

This product is not approved for the EU Ecolabel.

Date of issue 2012-01-31

Revision date 2014-11-27

SCA Hygiene Products AB, 405 03 GÖTEBORG, Sweden

**Production**

Material produced at Skelmersdale mill, certified according to ISO 9001 and ISO 14001.

**Destruction**

CENTREFEED is used both for personal hygiene and for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled / disposed of / destroyed. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
