***Stylish  
Design***

***Large  
Screen***

***Solid  
Buttons***

The Sharp ELW531B Scientific calculator includes 335 functions which makes it one of the leading models in its class. The 16 digit 4 line LCD screen gives a 96 x 32 dot matrix display, which means that text is easier to read as well as appearing clearer. Sharp have designed this product with an aesthetically pleasing 'glass-top' design which gives a high quality yet sturdy feel and the product casing is in a matching colour.

The ELW531B features Sharp's WriteView technology, which makes it easy to key-in algebraic equations and this helps by making learning easier. It includes functions which are suitable for Key Stage 3/4, 'A' and 'AS' level, and even for any engineer or surveyor who needs to calculate algebraic equations or trigonometry.

- Full LCD display - allowing display of entire
- 335 Functions:
