

BT4600 Big Button Advanced Call Blocker

Block up to 100% of Nuisance Calls

The BT4600 Big Button Advanced Call Blocker, powered by TrueCall's award winning technology, offers users complete control over which calls they want to take and those they wish to block.

Call Guardian

The BT4600 includes BT's Call Guardian, which means you'll never have to speak to another cold caller again:

- Call Guardian screens incoming calls:
 - Numbers on your contact list get straight through
 - Numbers you have blocked are rejected (selected by user)
- For all other calls Call Guardian asks the caller to say their name and then asks the user whether they want to accept or block the call without speaking to the caller

Blocking calls can be done in a number of ways:

Block by Number

The BT4600 can block up to 1000 individual numbers, meaning that you really can avoid speaking to the people you don't want to. Over time, the phone learns which calls you do and don't want to take.

Send Calls to the Answer Phone

If you are unsure if you want to block the call, you can send them to the Answerphone and then Block from your calls list later.

Main Features

- BT Call Guardian “Hot Key”, for one touch blocking
- Block up to 100% of Nuisance Calls
- Block up to 1000 numbers
- Incorporates award winning TrueCall blocking technology
