

TOOLS

Avery Dennison™ invented high productivity tagging and our tools continue to set industry standards for quality and dependability. Lightweight, comfortable and easy to use, these tools are suitable for all general purpose applications.

The ergonomic Mark III™ Electric Tool is especially effective in higher volume tagging situations.

NEEDLES

Safe to use on most fabrics, Standard Needles are specially designed with a rounded tip and a smooth, exact profile to prevent snagging. Also available in Safety Sealed Blister Packs.

SWIFTACH® PADDLE FASTENERS

The original, and still most widely used fastener in the industry. Avery Dennison™ paddle fasteners are precision molded and available with our unique “connected paddle” design to insure tangle-free operation.

Both 80 and 100-per-clip fasteners are a great productivity booster.

T-END™ FASTENERS

Provide a secure attachment and a more finished look.

T-End™ fasteners work well in pairing, packaging applications and product assembly.

TOOLS

Fine Fabric™; the right tool for the job when attaching tags to delicate and tightly knit fabrics. Designed to operate with special Fine Fabric™ Needles, expensive garments are safe from holes and snags.

The Mark III™ Fine Fabric™ Electric Tool offers high volume tagging operations added speed, comfort, and safety.

NEEDLES

With a slimmer profile and special finish, Fine Fabric™ needles guard against holes and snags. Also available in Safety Sealed Blister Packs.
