- PHOSPHATE & ZEOLITE FREE

PASSIONATE ABOUT LAUNDRY

ENSURING A CONSISTENT FLOW OF CLEAN & HYGIENIC LINEN

...thanks to highly efficient laundry detergents

Whether you are processing laundry for your hotel, restaurant, care home, ... it all comes down to one thing: to guarantee a consistent supply of fresh, hygienic linen for your guests or residents. It is a serious responsibility which requires not only a thorough knowledge of the legal requirements, but also of the textiles, the stains and the suitable wash processes.

And here, Clover Christeyns can step in. Our laundry chemists have formulated highly efficient detergents, which will allow you to process laundry quickly and efficiently with care for the textiles.

To meet your needs, our laundry specialists have carefully selected a specialised range for non-delicate textiles, called CARETEX.

CARETEX Powder Ultra

CARETEX POWDERS

As a market leader for industrial laundry in Europe, Christeyns has a proven track record for the formulation and manufacture of high quality laundry products. Our laundry powders are no exception.

After many years of testing and assessment in the industrial laundry sector, Christeyns are excited to bring together our new innovative powder range to the UK, especially designed for the janitorial market. Supplied in a 7 kg bag with a resealable zip, three different powder types are available, depending on customer's requirements.

WHY USE POWDER?

Powdered laundry detergent has been on the market for many years. And whilst many businesses have swapped to liquid detergents, there are still many benefits from using a powdered product:

- Powder offers detergent and de-stainer 'In One'. No need for two separate products.
- Unlike many competitor's products, our powders are phosphate and zeolite free. Therefore offering improved environmental credentials.
- Liquids can be difficult to handle, especially during pouring. Powder can be scooped out of the bag and poured directly into the washing machine drawer.
- The amount of powder used per wash is generally less than that needed for a wash using liquid. Thus leading to savings on transport and packaging.

Our powders give an excellent wash performance; leaving your laundry with a long lasting fresh fragrance.

CARETEX POWDER

LAUNDRY DETERGENT POWDER

CARETEX Powder is suited for washing all types of non-delicate textiles. It ensures efficient stain removal and excellent wash results. Phosphate- and zeolite- free.

7 kg

CARETEX POWDER PLUS

COMPLETE LAUNDRY DETERGENT POWDER

CARETEX Powder Plus is suited for washing of all types of non-delicate textiles. At a slightly higher price point compared to the standard product, it results in more efficient stain removal and superior wash results, even at low dosages and low temperatures. Phosphate- and zeolite- free.

7 kg

CARETEX POWDER ULTRA

PREMIUM COMPLETE LAUNDRY DETERGENT POWDER

CARETEX Powder Ultra is highly concentrated and a match to any of the market leading powders currently on the market. It is suited for washing of all types of non-delicate textiles and leads to the efficient removal of bleachable stains. Protein-based stains are easily removed due to the incorporation of the latest enzyme technology. CARETEX Powder Ultra ensures excellent washing results even at low dosages and low temperatures leaving behind a pleasant freshly washed smell. Phosphate- and zeolite- free.
