

### Product main features

Ball pen, clicker ballpoint pen and retractable ballpoint pen, visible parts are 1.2 mm for a fine write of 1.0 mm, long without ink is 4 cm, no metal parts, 100% recycled, completely inkless and odorless and odorless, made in France

#### Cartridges made by BIC

Long and resistant ballpoint pen

Cartridge made in Italy

- Environmentally friendly
- Recyclable
- Completely inkless and odorless

Available:

#### Point made by BIC

Super-precision point manufacturing process for complete ink flow

#### Tempered multi-ball

Perfectly spherical and rounded ball tips of 50 balls per cartridge ensure quality and writing precision at a low ink consumption/efficiency ratio

#### Ballpoint pen in polystyrene

Reduce greenhouse footprint

#### Writing hole

Capable of drawing inside the pen with the use outside to prevent ink leakage

#### Clear hexagonal barrel in polystyrene

Reduce greenhouse footprint

#### Retractable cap in polypropylene

Reduce greenhouse footprint

### Process and Controls

100% manufactured in France

More than 10 quality controls are carried out throughout the Cristal® production process. Non-compliance rate: 0.0000000001%

### Norms and regulations compliance

#### REACH

- 100% REACH compliant
- 100% REACH compliant
- 100% REACH compliant
- 100% REACH compliant
- 100% REACH compliant

#### RoHS

- 100% RoHS compliant
- 100% RoHS compliant

### Environment and social responsibility

#### Environment

- 100% recycled ink
- 100% recycled ink
- 100% recycled ink
- 100% recycled ink
