

# Honeywell | Air Purifier

## Premium Air Purifier

### HPA710

Top of the range air purifier with a sleek design and powerful air purification.

- Captures up to 99.97% of microscopic particles (0.3 microns and larger) such as mould, spores, pollen, dust, smoke, and pet dander (true HEPA filter)
- Helps reduce unpleasant household odours and VOCs/gases (pre-filter)
- Electronic filter replacement indicators, easy to replace and requires no tools
- **LED air quality sensor** with three colours to easily display the air quality.
- 5 air cleaning levels setting:
  - 1: **Whisper Silent** ~ low setting
  - 2: **Germ** ~ medium setting
  - 3: **General Clean** ~ high setting
  - 4: **Allergen** ~ very high setting
  - 5: **Turbo** - Turbo clean for fast cleaning action
- **Ionizer** reinforces the air purification process by helping to attract the unwanted particles to the filters.
- **Turbo clean** function enables fast filtration.
- **Auto mode** that actively adjusts the intensity according to the current air quality.
- Electronic timer (2-4-8 hours)
- Easy to use **touch controls**
- **Sleep mode** for silent operation and lights off to allow more discrete running.
- **Energy saving** DC motor which allows for quiet operation.
- **Child lock**
- CADR: 204 m3/h
