## Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 - United Kingdom (UK)

# **SAFETY DATA SHEET**

866 Toner

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier	
Product name	: 866 Toner
Product description :	Part number :
Toner ASM 866 SS Toner ASM 866 DR	15B0866 15B0867
REACH Status	: EU (REACH): All components of the toner formulation are registered, pre-registered or exempt under REACH. Pre-registered chemicals will be registered between 201 and 2018.
Product type	: Solid.
1.2 Relevant identified uses	of the substance or mixture and uses advised against
Product use	<ul> <li>Laser Printer B2865, M5255, M5265, M5270, MB2770, MS725, MS821, MS822, MS823, MS824, MS825, MS826, MX721, MX722, MX725, MX822, MX824, MX826, XM5365, XM5370, XM7355, XM7365, XM7370</li> </ul>
Area of application	: Consumer applications, Industrial applications.
1.3 Details of the supplier of	the safety data sheet
Lexmark International, Inc. 740 West New Circle Road Lexington, Ky 40550	
e-mail address of person responsible for this SDS	: rcassidy@lexmark.com
Only representative	
Only representative	: Environ Sterling House The Bourse, Boar Leeds, L5I 5EQ, United Kingdom
e-mail address of person responsible for this SDS	: sbullock@uk.environcorp.com
Emergency telephone number (with hours of operation)	: +44 (0) 113 245 7552
1.4 Emergency telephone nu	nber
<u>Supplier</u>	
Telephone number	: Informations :1-859-232-2000 Emergency :1-859-232-3333 ChemTel: US/Canada/Puerto Rico International (Collect calls accepted) 1-800-255-3924 1-813-248-0585
Hours of operation	: 24/7

1/12

## **SECTION 2: Hazards identification**

SECTION 2: Hazards	10	ientification
2.1 Classification of the subs	ta	nce or mixture
Product definition	1	Mixture
	Re	gulation (EC) No. 1272/2008 [CLP/GHS]
Not classified.		
The product is not classified a	is I	nazardous according to Regulation (EC) 1272/2008 as amended.
Ingredients of unknown toxicity	:	<ul><li>1.2 percent of the mixture consists of component(s) of unknown oral toxicity</li><li>4.6 percent of the mixture consists of component(s) of unknown dermal toxicity</li><li>4.6 percent of the mixture consists of component(s) of unknown inhalation toxicity</li></ul>
Ingredients of unknown ecotoxicity	:	Contains 3.3 % of components with unknown hazards to the aquatic environment
See Section 11 for more deta	ileo	d information on health effects and symptoms.
2.2 Label elements		
Signal word	1	No signal word.
Hazard statements	1	No known significant effects or critical hazards.
Precautionary statements		
General	1	Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
Prevention	1	Not applicable.
Response	1	Not applicable.
Storage	1	Not applicable.
Disposal	1	Not applicable.
Supplemental label elements	:	Not applicable.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	:	Not applicable.
Special packaging requirem	er	<u>its</u>
Containers to be fitted with child-resistant fastenings	:	Not applicable.
Tactile warning of danger	1	Not applicable.

#### 2.3 Other hazards

Other hazards which do not result in classification

: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). COMBUSTIBLE DUSTS

## **SECTION 3: Composition/information on ingredients**

Product/ingredient name	Identifiers	%	Regulation (EC) No. 1272/2008 [CLP]	Туре
carbon black, non respirable	EC: 215-609-9 CAS: 1333-86-4	≤10	Not classified.	[2]
triiron tetraoxide	EC: 215-277-5 CAS: 1317-61-9	≤5	Not classified.	[2]
Charge Control Agent	-	≤3	Flam. Sol. 1, H228 Acute Tox. 4, H302 Aquatic Acute 1, H400	[1]

## **SECTION 3: Composition/information on ingredients**

titanium dioxide	EC: 236-675-5 CAS: 13463-67-7	≤3	(M=1) Aquatic Chronic 1, H410 (M=1) Not classified.	[2]
			See Section 16 for the full text of the H statements declared above.	

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

[6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs	s/symptoms
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

## 4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician		otomatically. Contact pois have been ingested or inh		nmediately	y if large	
Specific treatments	: No specific	treatment.				
Date of issue/Date of revision	: 3/9/2018	Date of previous issue	: No previous validation	Version	:0.01	3/12

## **SECTION 5: Firefighting measures**

5.1 Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Do not use water jet.

# 5.2 Special hazards arising from the substance or mixture Hazards from the substance or mixture Hazardous combustion products Composition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides

5.3 Advice for firefighters		
Special precautions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures For non-emergency : No action shall be taken involving any personal risk or without suitable training. personnel Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment. **For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". **6.2 Environmental** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental precautions pollution (sewers, waterways, soil or air). 6.3 Methods and material for containment and cleaning up Small spill : Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. Large spill Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. 6.4 Reference to other : See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. sections See Section 13 for additional waste treatment information.

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

Protective measures	:	Put on appropriate personal protective equipment (see Section 8). Prevent toner dust from being released into the air.
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
7.2 Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
7.3 Specific end use(s)		
Recommendations	1	Not available.
Industrial sector specific solutions	:	Not available.

## **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### Occupational exposure limits

carbon black, non respirableEH40/2005 WELs (United Kingdom (UK), 12/2011). STEL: 7 mg/m³ 15 minutes. TWA: 3.5 mg/m³ 8 hours.triiron tetraoxideEH40/2005 WELs (United Kingdom (UK), 12/2011). STEL: 10 mg/m³, (as Fe) 15 minutes. Form: Fume TWA: 5 mg/m³, (as Fe) 8 hours. Form: Fume EH40/2005 WELs (United Kingdom (UK), 12/2011). TWA: 10 mg/m³, (as Fe) 8 hours. Form: respirable dust TWA: 10 mg/m³ 8 hours. Form: respirable dustRecommended monitoring procedures:If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidan cfor the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedure for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.	Product/ingredient na	ne Exposure limit values

## **SECTION 8: Exposure controls/personal protection**

No DNELs/DMELs available.

#### **PNECs**

No PNECs available

8.2 Exposure controls		
Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Individual protection meas	ures	1
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## **SECTION 9: Physical and chemical properties**

9.1 Information on basic physic	cal and chemical properties
<u>Appearance</u>	
Physical state	: Solid. [Finely divided solid.]
Colour	: Black.
Odour	: Plastic. [Slight]
Odour threshold	: Not available.
рН	: Not applicable.
Melting point/freezing point	: Not available.
Initial boiling point and boiling range	: Not available.
Flash point	: Not applicable.
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
•	

## **SECTION 9: Physical and chemical properties**

Vapour pressure: Not available.Vapour density: Not available.Relative density: Not available.Solubility(ies): Insoluble in the following materials: cold water and hot water.Partition coefficient: n-octanol/ water: Not available.Auto-ignition temperature: Not available.Decomposition temperature: Not available.Viscosity: Not available.Viscosity: Not available.	Upper/lower flammability or explosive limits	: Not available.
Relative density: Not available.Solubility(ies): Insoluble in the following materials: cold water and hot water.Partition coefficient: n-octanol/ water: Not available.Auto-ignition temperature: Not available.Decomposition temperature: Not available.Viscosity: Not available.	Vapour pressure	: Not available.

	Decomposition temperature	: Not available.
	Viscosity	: Not available.
<b>Explosive properties</b> : Not available.	Explosive properties	: Not available.
Oxidising properties : Not available.	Oxidising properties	: Not available.

#### 9.2 Other information

No additional information.

<b>SECTION 10: Stabilit</b>	y and reactivity
10.1 Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: The product is stable.
10.3 Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: No specific data.
10.5 Incompatible materials	: Strong oxidising materials
10.6 Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
866 Toner	LC50 Inhalation Vapour LD50 Oral	Rat Rat	>5000 mg/l >5000 mg/kg	4 hours -
Conclusion/Summary	: Not available.			
rritation/Corrosion				
Conclusion/Summary	: Not available.

<u>Mutagenicity</u>				
Conclusion/Summary	: Not mutagenic in Ames test.			
<u>Carcinogenicity</u>				

0	gical information
	Low acute inhalation toxicity. As with exposure to high concentrations of any dust, minimal irritation of the respiratory tract may occur. Pure carbon black and titanium dioxide, minor components of this product, has been listed by IARC as a group 2B (possible carcinogen). This classification is based on rat "lung particulate overload" studies performed with airborne particulate. Toner is not listed by IARC, NTP, or OSHA.

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
866 Toner	Acute EC50 >1000 mg/l	Daphnia	48 hours
Conclusion/Summary	: Not available.		

12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

#### 12.3 Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
Charge Control Agent	1.32	-	low

12.4 Mobility in soil	
Soil/water partition	: Not available.
coefficient (Koc)	
Mobility	: Not available.

12.5 Results of PBT and	vPvB assessment
PBT	: Not applicable.
vPvB	: Not applicable.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

Product	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	<ul> <li>Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.</li> </ul>
Packaging	
Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
Special precautions	This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## SECTION 14: Transport information
