Key Selling Points

Crisp and sharp picture quality
Enhanced contrast, colors and details
Micro Dimming for better contrast
Dolby Audio delivers rich, clear, powerful sound in your TV
Sound to the headphones and from the TV simultaneously
Elegant frameless design

Product Features

Crisp and sharp picture quality

Enjoy the Full HD viewing experience that offers a two times better resolution (1920 x 1080 pixels) than standard HD TVs for a crisper and sharper picture.

Enhanced contrast, colors and details

HDR expands the range of both contrast and color significantly. HDR reproduces accurately light and dark shades with precise colors and more detailed images.

Micro Dimming for better contrast

Micro Dimming analyzes the TV picture in thousands of separate zones to adapt the brightness. Picture quality is significantly improved for a better visual experience, especially in the dark.

Dolby Audio delivers rich, clear, powerful sound in your TV

Get the most out of your content with dynamic, high-quality surround sound with Dolby Audio. Whether you are watching films, TV programs, online videos or concerts, Dolby Audio ensures you audio quality that meets your expectations.

Sound to the headphones and from the TV simultaneously

This TV can play sound simultaneously from the internal speakers and connected headphones via the 3.5 mm jack or Bluetooth. Both volume levels can be regulated separately. One household member can enjoy listening to the TV through headphones without playing the TV loudly.

Elegant frameless design

No frame on the front for a bigger screen and more picture that you love. This slim design concept is not only an elegant piece of craftsmanship but also a durable one that will blend into your living space. A timeless piece of design elevating and blending perfectly into your living space.
