

The **SuperGuard^{PRO}** face shield is intended to be worn by healthcare professionals to protect the face from liquid splashes and bodily fluids when treating patients.

Technical Specification

Visor manufactured in the UK from optically clear PET.

Size: 230mm x 325mm

Thickness: 200 micron

2 x snap rivets manufactured from acetal plastic

25mm flat elastic headband, heat cut to length to stop fraying of the ends. The elasticated nature of the headband and the soft foam pad that sits between the face shield and the users forehead result in a self-adjusting head band.

Polyether polyurethane foam pad (latex free) secured to the face shield with double sided AR adhesive tape on the 30mm side of the foam pad. Size: 250mm x 30mm x 20mm.

Fog resistant.

The Face Shield will be manufactured in accordance with the following Directive(s) and will be CE marked on the visor:

Regulation (EU) 2016/425

Personal Protective Equipment (Classification: PPE Class I)

Harmonised Standards Applied

BS EN 166:2002 – Personal Eye Protection

BS EN 168:2002 – Personal Eye Protection
(non optical test methods)
