Material Specifications – L7160-100 UltraGrip Address Labels, Laser

Laminate

Basis Weight	170+/-10% g/m ²	ISO 536
Caliper	190 +/-10% μm	ISO 534

Facestock

A matt, white woodfree machine finished paper with good opacity, very good absorption and toner bonding characteristics.

Basis Weight	70 +/-10% g/m ²	ISO 536
Caliper	90 +/-10% μm	ISO 534

Adhesive

The adhesive is a general purpose permanent, acrylic based adhesive. It is characterized by high tack, excellent adhesion and good low temperature performance on a wide variety of substrates.

Min. Application Temp. 5 °C

Service temperature -20 to +80°C

Liner

A one side coated, bleached kraft paper.

Basis Weight	80 +/-10% g/m ²	ISO 536
Caliper	85 +/-10% μm	ISO 534

To the best of our knowledge this product does not contain any Substances of Very High Concern (SVHC) (revision 08/07/2021) over a limit of 0.1% (w/w).

To the best of our knowledge this product is in compliance with the requirements of the European Union Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment, also known as "RoHS 2" or "RoHS recast" and as amended by Directive 2015/863 (RoHS 3). Random testing of this product measured levels of the regulated substances significantly below the set maximum concentration limits.

There are no animal derived materials used in the manufacture of or the formulation of the product.

There are no genetically modified organism (GMO) derived materials used in the manufacture of or the formulation of the product.

No substances or chemicals known to the state of California pursuant to proposition 65 to cause cancer or reproductive toxicity used in the manufacture of or the formulation of this product. The list of chemicals known to the State of California to cause cancer or reproductive toxicity can be obtained at <http://www.oehha.ca.gov/prop65.html>.

"Natural rubber latex", "dry natural rubber" or "rubber that contains natural rubber" are not used in the manufacture of or the formulation of this product.

We do not expect that the above substances will be formed during manufacturing, normal handling, storage or use of this product. Based on our knowledge of the raw materials and our manufacturing process, we do not expect these substances to be present in this product. However, we cannot guarantee that they are not present due to environmental contamination or through the different causes which are beyond our control.

Please note that we do not routinely analyse our products for their presence. Furthermore as analytical tools and techniques develop a lower limit of detection may be possible for these substances in future than is possible today.

Yours Sincerely,

On Behalf of Avery UK
